What Do You Really Want for Your Children?

By Wayne W. Dyer

As a parent, it's natural to want the best for your children. But what does "the best" really mean? Is it wealth, success, or happiness? In his book "Real Magic," renowned spiritual author Wayne W. Dyer poses the question: "If you could give your children only one gift for life, what would it be?"

Excerpt from Chapter 2: Magic and the Gift of Miracles

"What is it that you truly want for your children? I mean what is their greatest need? Is it good grades, strong muscles, popularity, money, or peace of mind?"

The Importance of Inner Peace

Dyer argues that the greatest gift you can give your children is inner peace. He writes, "If your children are at peace with themselves, they will be able to overcome any challenge that life throws their way." Inner peace allows children to navigate life's ups and downs with resilience, optimism, and purpose.

Cultivating Inner Peace

So how do you cultivate inner peace in your children? According to Dyer, it starts with modeling it yourself. Children learn from their parents by observing their behavior. If you want your children to be peaceful, you need to be peaceful yourself.

Teaching Self-Awareness

Dyer also emphasizes the importance of teaching children self-awareness. He writes, "If your children are aware of their thoughts, feelings, and actions, they will be better equipped to make choices that are in their best interests." Self-awareness helps children understand their own needs and boundaries, and it fosters self-regulation and emotional intelligence.

Conclusion

While material possessions and external achievements can bring temporary happiness, they do not provide the lasting fulfillment that comes from inner peace. By prioritizing inner peace and teaching children self-awareness, we can empower them to live lives filled with purpose, resilience, and joy. As Dyer writes, "The greatest gift you can give your children is the gift of peace, and that gift will keep on

giving for a lifetime."
