What were King Arthur's last words? 'I am leaving you now, and I want you to tell the story of King Arthur and the Knights of the Round Table. I will come again one day when my country asks for me,' called King Arthur to Sir Bedivere from the boat. Those were the King's last words.

Is there any evidence that King Arthur was real? Some people do believe that King Arthur could have been a real person, but despite the occasional news story about an archaeological discovery that may provide clues, experts on Arthurian legend tell TIME that there is no evidence — no primary source from the time — to confirm that King Arthur was ever a real person.

Who was the first author to write about King Arthur? Geoffrey of Monmouth. Geoffrey of Monmouth's *Historia Regum Britanniae*, completed c. 1138, contains the first narrative account of Arthur's life. This work is an imaginative and fanciful account of British kings from the legendary Trojan exile Brutus to the 7th-century Welsh king Cadwallader.

When was King Arthur around? There is reasonable, although scanty, documentary evidence that there was a British military leader named Arthur in the late 5th or early 6th century. It is impossible, however, from the surviving records to accurately determine what this man's role might have been.

What is the oldest telling of King Arthur? The first definite mention of Arthur appears circa 828 in the *Historia Brittonum*, where he is presented as a military leader fighting against the invading Saxons in 5th- to 6th-century Sub-Roman Britain at the Battle of Badon, written more than three centuries after the events depicted.

How old was King Arthur when he was killed? Most estimations place him between 35 and 50, while some are closer to 75. Part of the issue here is that it is not known exactly when Arthur was born, when he died, or if he was even a historical figure at all. Some sources placed his death in the late 5th century, while others place it in the early 6th century.

What happened to Guinevere after King Arthur died? While Guinevere was locked in the Tower of London, King Arthur fought Mordred to regain his throne. Both King Arthur and Mordred died in their battle with each other. After King Arthur died, Guinevere joined a nunnery and stayed there until her death. She was buried next to King Arthur.

Does Excalibur exist? Excalibur is a legendary sword, not a real one, despite the claims made by some who believe they have recovered the item and the sensationalist headlines designed to draw readers in with the promise of this fictional sword becoming real.

Did Merlin actually exist? The real Merlin, Myrddin Wyllt, was born in about 540 and had a twin sister called Gwendydd. He served as a bard to Gwenddoleu ap Ceidio, a Brythonic or British king who ruled Arfderydd, a kingdom including parts of what are now Scotland and England in the area around Carlisle.

How tall was King Arthur? Arthur is just under Dutch's height, who was confirmed to be exactly 6 foot tall. A good estimate for Arthur's height would be 5'11.

What religion was King Arthur? But as I was looking at 6th century interpretations of Arthur, they see him as a Romano-British warlord/chieftain/military leader and a Christian. In fact all sources say that Arthur is a Christian, but when you look at the company he keeps in the old Welsh tales, he doesn't seem like it.

Was Camelot a real place? Medieval texts locate it somewhere in Great Britain and sometimes associate it with real cities, though more usually its precise location is not revealed. Most scholars regard it as being entirely fictional, its unspecified geography being perfect for chivalric romance writers.

Did King Arthur have any children? Offspring. Although Arthur is given sons in both early and late Arthurian tales, he is rarely granted significant further generations

KING ARTHUR SCRIPT TRANSCRIPT FROM THE SCREENPLAY AND OR

of descendants. This is at least partly because of the premature deaths of his sons, who in the later tradition usually (and prominently) include Mordred.

What language did King Arthur speak? What Arthur and his knights of the round table, and all the other people around then and there, would have been speaking was something we now call Brythonic or Brittonic: a Celtic language. Completely unlike modern English.

What was King Arthur's last name? In most British texts, Arthur appears simply as "Arthur. " However, Geoffrey of Monmouth listed the Welsh king Uther Pendragon as Arthur's father, so when we need to attach a last name to Arthur, Pendragon is generally what we use.

Was Sir Lancelot a real person? Was Lancelot a real person? The debate over the historicity of the characters in Arthurian legend is ongoing. It is unlikely that there was a single person upon whom the character of Lancelot is based, but it is possible that he was inspired by some real figures.

Is there any evidence of King Arthur? There is little concrete evidence, historians have differing theories, and so it appears we may never know for certain.

What nationality was King Arthur? King Arthur | PBS. Arthur, a Celtic king born of deceit and adultery, grew to become one of the most famous rulers of Britain. He was a warrior, a knight and a king who killed giants, witches and monsters and led a band of heroes on many daring adventures.

How many wives did King Arthur have? Though one of the Welsh Triads (Triad 56) speaks of Arthur's three great queens (all named Gwenhwyfar), later romance generally gives him only one wife named Guinevere. Geoffrey of Monmouth introduces the notion of Guinevere's infidelity (with Modred) while Arthur is fighting on the continent.

What happened to Lancelot after Arthur died? When Launcelot hears of the death of Arthur and Gawain, he comes to England in haste. He looks for the queen and finds her in a nunnery. For love of Guinevere as much as for remorse he takes on the habit of a priest. Guided by visions, he goes to Almesbury, where he finds Guinevere dead.

What happened to Excalibur after Arthur died? In Arthurian legends, Excalibur is returned to the Lady of the Lake after King Arthur's death. When he is dying, Arthur tells one of his knights, often Bedivere, to throw the sword back into the lake.

Did Guinevere and Arthur have children? Guinevere is childless in most stories. The few exceptions of that include Arthur's son named Loholt or Ilinot in Perlesvaus and Parzival (first mentioned in Erec and Enide).

Did King Arthur marry his daughter? Their Marriage Arthur met his daughter Guinevere, and fell instantly in love. Merlin tried to persuade Arthur against marrying her, telling him that she would lead to his and his country's ruin. Arthur loved her too much, and married her anyway.

What happened to Merlin after King Arthur died? In the Perceval en prose (also known as the Didot Perceval and also attributed to Robert), where Merlin is the initiator of the Grail Quest and cannot die until the end of days, he eventually retires after Arthur's downfall by turning himself into a bird and entering the mysterious esplumoir, never to be seen again.

Was a 700 year old sword found in a stone? A 700-year-old sword has been dubbed the 'real-life Excalibur' after it was discovered stuck in a rock in a Bosnian river. The legend of King Arthur claims that he was the only one who was able to pull a sword from stone, but this recently uncovered blade seems to have brought the legend to life.

Was Merlin a real person? Ask British historian Nikolai Tolstoy and he'll tell you without hesitation: "Merlin was indeed an historical figure, living in what are now the Lowlands of Scotland at the end of the sixth century A.D. ... he was an authentic prophet, most likely a druid surviving in a pagan enclave of the North.

Was the round table real? The Round Table was added to his legend centuries later so it's highly unlikely, but by no means impossible that such a table existed.

What was King Arthur's dying wish? King Arthur's dying request is for Sir Bedivere to throw the Excalibur into the lake, but Bedivere's greed temporarily prevails over his loyalty. He lies twice to Arthur about throwing the sword back. On his third trip to the water, he fulfills Arthur's dying wish.

What were Arthur's last words to Dutch?

What is King Arthur's cause of death? Arthur is mortally wounded by his brother-son, Mordred, who stabs him in the head with his sword. Arthur is placed in a boat and floated down the river toward Avalon. It is intended that Arthur will receive healing there; however, Arthur is never heard from again.

How did King Arthur's life end? In the commotion, Arthur had dropped Excalibur and its scabbard. Seeing Mordred, he picked up a spear, and charged at him. Mordred charged back with his sword. The sword came forward and cleaved Arthur's skull just as he drove his spear through his son's hateful heart.

What happened to Guinevere after King Arthur died? While Guinevere was locked in the Tower of London, King Arthur fought Mordred to regain his throne. Both King Arthur and Mordred died in their battle with each other. After King Arthur died, Guinevere joined a nunnery and stayed there until her death. She was buried next to King Arthur.

How were Lancelot and Guinevere caught? Vivian, one of the queen's ladies, overhears these plans, and takes them to Mordred, who in turn catches Lancelot and Guinevere together. They flee, and Guinevere takes sanctuary in the nunnery, never to be seen or heard from by any of them again.

How did Lancelot betray King Arthur? Lancelot betrayed King Arthur by having an affair with Guinevere, Arthur's wife.

Did Dutch actually care for Arthur? Dutch essentially raised Arthur, teaching him how to ride, shoot and read (amongst other things). The two had become very close, with Dutch often referring to Arthur as his "son" or "brother".

What was Arthur's full name? Arthur Timothy Read is a fictional anthropomorphic aardvark created by the author Marc Brown. The main character of the television series Arthur, he is in the third grade and lives in the fictional city of Elwood City.

Did Dutch love Arthur in the end? The truth is Dutch loved Arthur and John, they were as his sons. But Dutch is a broken man by the time we see him turn on them, this is not the same man as the beginning of the story. At the end, when Dutch is

standing over Arthur, unable to speak. That's when he realizes what he has done.

Who killed Lancelot? To seize the throne of Dumnonia, Lancelot conspires against Arthur with Guinevere, incites a Christian rebellion, and defects to the invading Saxons, ending up being hanged by his own half-brother Galahad and by the narrator Derfel (who had lost his daughter to Lancelot's scheming).

What happens to Lancelot after Arthur dies? When Launcelot hears of the death of Arthur and Gawain, he comes to England in haste. He looks for the queen and finds her in a nunnery. For love of Guinevere as much as for remorse he takes on the habit of a priest. Guided by visions, he goes to Almesbury, where he finds Guinevere dead.

In the *Perceval en prose* (also known as the *Didot Perceval* and also attributed to Robert), where Merlin is the initiator of the Grail Quest and cannot die until the end of days, he eventually retires after Arthur's downfall by turning himself into a bird and entering the mysterious *esplumoir*, never to be seen again.

The Globalization of World Politics: An Introduction to International Relations

In the 21st century, the world is interconnected like never before. Globalization has reshaped not only our economies but also our political landscapes. International relations, once focused primarily on interactions between nation-states, now encompasses a wide range of actors and issues.

What is Globalization?

Globalization refers to the increasing interdependence and interconnection of the world's nations. It involves the movement of goods, services, people, and ideas across borders. Globalization has been driven by technological advancements, such as the internet and transportation, and by economic policies that promote free trade and investment.

How Has Globalization Affected World Politics?

Globalization has had a profound impact on world politics. It has:

- Increased interdependence: Countries are now more economically, politically, and culturally connected than ever before.
- Transnational challenges: Globalization has created new global issues that transcend national boundaries, such as climate change, terrorism, and cyberwarfare.
- New actors: Globalization has empowered non-state actors, such as corporations, international organizations, and NGOs, to play a significant role in world politics.

Key Concepts in International Relations

To understand the globalization of world politics, it is important to grasp key concepts in international relations:

- Sovereignty: The principle that each state has the supreme authority within its territory.
- Interdependence: The mutual dependence between countries on each other.
- National interest: The goals and objectives that a country seeks to achieve in its foreign policy.
- Power: The ability of a country to influence the behavior of others.

Challenges and Opportunities

Globalization presents both challenges and opportunities for world politics. On the one hand, it has increased interdependence and promoted cooperation. On the other hand, it has also led to new challenges, such as global inequality and environmental degradation. Navigating the complexities of global politics requires effective international cooperation and coordination.

In conclusion, the globalization of world politics has transformed the international system. It has increased interdependence, created new transnational challenges, empowered new actors, and redefined key concepts in international relations. Understanding the globalization of world politics is essential for navigating the complexities of the 21st-century world.

Soal Pembahasan Matematika SMA

Soal 1:

Hitunglah nilai dari $x^2 - 2x + 1$ jika $x = 2$.

Jawab:

$$x^2 - 2x + 1 = (2)^2 - 2(2) + 1 = 4 - 4 + 1 = 1$$

Soal 2:

Tentukan persamaan garis yang melalui titik (2, 3) dan sejajar dengan garis $y = 2x - 1$.

Jawab:

Gradien garis $y = 2x - 1$ adalah 2. Karena garis sejajar, maka gradiennya juga 2. Jadi, persamaan garisnya adalah $y = 2x + c$. Untuk mencari nilai c , kita substitusikan titik (2, 3):

$$3 = 2(2) + c \quad 3 = 4 + c \quad c = -1$$

Jadi, persamaan garisnya adalah $y = 2x - 1$.

Soal 3:

Hitunglah luas daerah yang dibatasi oleh kurva $y = x^3$, sumbu x , dan garis $x = 2$.

Jawab:

Luas daerah tersebut adalah:

$$\int_0^2 x^3 dx = \left[\frac{x^4}{4} \right]_0^2 = \frac{2^4}{4} - 0 = 4$$

Soal 4:

Tentukan nilai dari $\sin 30^\circ + \cos 60^\circ$.

Jawab:

$$\sin 30^\circ = \frac{1}{2} \quad \cos 60^\circ = \frac{1}{2}$$

$$\sin 30^\circ + \cos 60^\circ = \frac{1}{2} + \frac{1}{2} = 1$$

Soal 5:

Sebuah kubus memiliki panjang rusuk 5 cm. Hitunglah volume dan luas permukaan kubus tersebut.

Jawab:

$$\text{Volume kubus} = (\text{panjang rusuk})^3 = (5 \text{ cm})^3 = 125 \text{ cm}^3$$

$$\text{Luas permukaan kubus} = 6 \times (\text{panjang rusuk})^2 = 6 \times (5 \text{ cm})^2 = 150 \text{ cm}^2$$

Understanding Pathophysiology 5th Edition Study Answers

Question 1: Define pathophysiology and explain its importance in understanding disease.

Answer: Pathophysiology is the study of the physiological changes that occur in response to disease. It helps clinicians understand the underlying mechanisms of disease and identify potential treatment targets.

Question 2: Describe the role of inflammation in the pathophysiology of various diseases.

Answer: Inflammation is a complex biological response to injury, infection, or other stressors. It involves the release of inflammatory mediators, which can lead to tissue damage, pain, swelling, and fever. Chronic inflammation is associated with a range of diseases, including cardiovascular disease, rheumatoid arthritis, and cancer.

Question 3: Explain the concept of homeostasis and how it relates to disease.

Answer: Homeostasis is the maintenance of stable internal conditions despite external changes. When homeostasis is disrupted, disease can occur. For example, in diabetes, the body's ability to regulate blood sugar levels is impaired, leading to hyperglycemia.

Question 4: Discuss the pathogenesis of cancer and the different mechanisms by which it can occur.

Answer: Cancer is a disease characterized by uncontrolled cell growth. It can arise from a variety of genetic mutations, epigenetic changes, and environmental factors. Common mechanisms of cancer pathogenesis include: activation of oncogenes, inactivation of tumor suppressor genes, angiogenesis, and invasion/metastasis.

Question 5: How can understanding pathophysiology guide clinical decision-making?

Answer: Understanding pathophysiology allows clinicians to:

- Accurately diagnose diseases based on their underlying mechanisms
- Predict the potential course and complications of a disease
- Develop targeted therapies that address specific pathophysiological pathways
- Implement preventive measures to reduce the risk of disease progression
