**Are Alfa Romeo engines made by Ferrari?** Gianluca Pivetti, Ferrari's head of gasoline engines, was brought on when the Giulia was being developed. So, while your Alfa Romeo vehicle does not have a Ferrari engine, it has an engine designed by ex-Ferrari engineers.

**Is Alfa Romeo made by BMW?** When you see the stylish Giulia or Stelvio cruising on the streets around Utica, you may start to wonder, “who owns Alfa Romeo?” Alfa Romeo has been owned by Fiat-Chrysler Automobiles (FCA) since 2007. While FCA has owned this luxury brand for over a decade, it still maintains its signature Italian flair.

**Do Alfa Romeo use Fiat engines?** Already in 1981, Alfa Romeo's then-President Ettore Massacesi had stated that Alfa would never use Fiat engines—the engines being, to a large extent, Alfa Romeo's identity—but would be happy to cooperate fully with everything else.

**Where can I check engine codes?** Use a code reader. Connect an OBD-II scanner to its diagnostic port, which is located below the steering wheel column. If you don't see it, refer to the vehicle manual for its exact location. For some scanners, you may need to enter the Vehicle Identification Number (VIN).

**How do I find my Alfa Romeo radio code?** Alfa Romeo car radios will normally contain a 14 digit serial number which can be found either printed on a label or engraved on the side of the unit.
