According to Rabbi Fischmann, "the Promised Land extends from the River of Egypt up to the Euphrates, it includes parts of Syria and Lebanon."

What was the original plan for Israel? The Arab state was to have a territory of 11,100 square kilometres or 42%, the Jewish state a territory of 14,100 square kilometres or 56%, while the remaining 2%—comprising the cities of Jerusalem, Bethlehem and the adjoining area—would become an international zone.

Why did UN give Palestine to Israel? After Israel declared its independence on May 14, 1948, the fighting intensified with other Arab forces joining the Palestinian Arabs in attacking territory in the former Palestinian mandate. On the eve of May 14, the Arabs launched an air attack on Tel Aviv, which the Israelis resisted.

Why is Israel attacking Palestine? The Israeli–Palestinian conflict is an ongoing military and political conflict about land and self-determination within the territory of the former Mandatory Palestine.

Why did the Arabs lose to Israel? The argument advanced in this chapter, in a nutshell, is that the Arab coalition facing Israel in 1947-49 was far from monolithic; that within this coalition there was no agreement on war aims; that the inability of the Arabs to coordinate their diplomatic and military moves was partly responsible for
