What happens to the Monster at the end of Frankenstein? Death: Both Victor and his creation meet their death in Chapter 24—Victor through illness, and the monster through intended suicide.

Why did Mary Shelley revise Frankenstein in 1831? By 1831, the deaths of her second daughter, her son William, and her husband, followed by Byron's death and Jane Williams's betrayal of her friendship -- together with her financially straightened circumstances and her guilt-ridden and unshakeable despair -- all convinced Mary Shelley that human events are decided not ...

Why is Frankenstein 1931 different from the book? Many of these differences revolve around the portrayals of both the doctor and his creation, such as the monster receiving a murderer's brain and becoming a killer in the 1931 Frankenstein, while the book's version is thoughtful and can speak in the novel.

How long is the original Frankenstein book?
