¿Qué significa que el nuevo arte es intrascendente? Se escucha con frecuencia que el arte es solo arte, sus objetivos y seducciones distan por completo de lo social, el artista no está interesado en la sociedad, sus musas viven en lugares mucho más lejanos.

¿Cuál es la idea de Ortega y Gasset? Ortega propone una nueva forma de entender el uso de la razón para comprender la vida y la historia del ser humano. La historicidad de la vida y del pensamiento es la clave filosófica de su doctrina. El pensamiento emana de la vida misma, es una función vital.

¿Qué plantea Ortega y Gasset en su obra La rebelion de las masas? En La rebelión de las masas, Ortega y Gasset desarrolla su idea del "hombre-masa", tomado en su conjunto —las masas populares— y en su individualidad. La aglomeración, el lleno, no era antes frecuente. ¿Por qué lo es ahora? Los componentes de esas muchedumbres no han surgido de la nada.
