**Why did Killian marry Jillian?** I do believe that Kael was Maverick's forever person but at the same time Killian does love her. Killian married Jillian to save his father from going to jail and to keep his mother from finding out that Jillian was pregnant by his father.

**Why did Killian turn evil?** Killian couldn't accept the cards that he was dealt, and, as intelligent as he was, had a real drive to change himself and become a different person.

**Why does Killian hate Tony?** Tony didn't meet him on the roof that night in Switzerland to talk about his AIM project. He didn't seem interested and he was more into the work Maya was working on. That was his reason for his hatred of Tony Stark, but overall, he was evil because of his controlling improvements of the human body.
