#### **1. Antipolemus: A Treatise Against War**

Antipolemus is Erasmus's seminal work condemning the horrors and futility of war. Written in the aftermath of the devastating European wars, it argues against the glorification of violence and the justification of bloodshed in the name of religion or politics. Erasmus emphasizes the suffering and loss inflicted on innocent civilians, calling war "the greatest evil that can befall mankind."

#### **2. The Colloquies: Dialogues on Everyday Life**

The Colloquies is a collection of witty and thought-provoking dialogues that explore a wide range of human experiences and perspectives. Erasmus cleverly uses fictional characters to engage in discussions on topics such as education, friendship, marriage, and religion. Through these dialogues, Erasmus exposes the hypocrisy and irrationality prevalent in society.

#### **3. In Praise of Folly: A Satirical Critique**

In *Praise of Folly* is Erasmus's most famous work, a satirical masterpiece that ridicules the foolishness and self-deception of human nature. Erasmus personifies Folly as a goddess who delivers a speech praising her own virtues. Through her ironic commentary, Erasmus targets the shortcomings of clergy, scholars, and society at large.

#### **4. The Complaint of Peace: A Plea for Harmony**

Written during a turbulent period marked by religious wars and political strife, *The Complaint of Peace* is a passionate plea for harmony and reconciliation. Erasmus laments the destructive consequences of conflict and urges leaders to seek peaceful resolutions. He advocates for tolerance, understanding, and the pursuit of a common good.

#### **5. The Manual of the Christian Knight: A Guide to Ethical Living**

*The Manual of the Christian Knight* is a spiritual guide for living a virtuous life in accordance with Christian principles.
