Can Canvas detect cheating? Through the Quiz Log function, the system will detect when the person taking the online test opens a new tab or browser, recording and reporting any suspicious action. Canvas can also avert cheating by locking the browser during the exam. Canvas tracks the time spent by the student on each question.

Can canvas see when you answer each question? The log may show all questions as being answered at the beginning of the quiz. This action is generated by the autosave component within Canvas quizzes. If a student clicks to answer another question, the quiz will autosave all the questions and show them as being answered.

Can canvas see if you copy and paste answers? Canvas does not identify direct copy-paste actions. However, the content pasted can still be checked for plagiarism by tools like Unicheck. It's essential to ensure originality, not just by avoiding direct copying but by thoroughly understanding and then writing in one's words.

What Hedge Funds Really Do: An Introduction to Portfolio Management

Q: What is a hedge fund? A: A hedge fund is an investment fund that pools money from investors and invests it in different assets, including stocks, bonds, currencies, and commodities. Hedge funds use sophisticated strategies, such as leverage and short selling, to generate high returns for investors.

Q: How do hedge funds generate returns? A: Hedge funds typically generate returns through alpha generation. Alpha is the excess return that a hedge fund can achieve above and beyond the market benchmark. Hedge funds use a variety of investment strategies to generate alpha, such as value investing, growth investing, and momentum trading.

Q: What are the risks of investing in hedge funds? A: Hedge funds can be risky investments. Some of the risks associated with investing in hedge funds include:

- **High fees:** Hedge funds typically charge high fees, which can eat into returns.
- **Lack of transparency:** Hedge funds are not required to disclose their investment strategies or holdings to investors.
- **Illiquidity:** Hedge funds can lock up investor money for long periods of time.

Q: How can I invest in hedge funds? A: There are a few ways to invest in hedge funds. You can invest directly through a hedge fund manager, or you can invest through a fund of funds. Funds of funds are investment funds that invest in a portfolio

of hedge funds.

Q: Is investing in hedge funds right for me? A: Whether or not investing in hedge funds is right for you depends on your investment goals and risk tolerance. If you are looking for long-term growth and are willing to take on more risk, then investing in hedge funds could be a good option for you.
