**Question 1: What was the Yescad?** Answer: The Yescad was a general assembly summoned by Genghis Khan in 1206 CE. It brought together the leaders of the various Mongol tribes to establish a unified Mongol Empire and create a new legal code known as the Yassa.

**Question 2: What were the contributing factors to the Yescad?** Answer: By the early 13th century, the Mongols had become a powerful nomadic confederation, united under the leadership of Genghis Khan. Internal rivalries, the need for a central authority, and the desire to expand their territories prompted him to convene the Yescad.

**Question 3: What were the major decisions made at the Yescad?** Answer: The Yescad established a centralized government, with Genghis Khan as the supreme ruler. It also created the Yassa, a comprehensive legal code that regulated all

aspects of Mongol life, from military strategy to religious practices. The assembly also formalized the division of the empire into administrative units known as "ulus."

**Question 4: What was the impact of the Yescad on Mongolia and the world?**

Answer: The Yescad transformed the Mongols from a loosely organized tribal federation into a formidable empire. It unified their military forces, established a legal framework, and promoted cultural exchange. The rise of the Mongol Empire under Genghis Khan would subsequently have a profound impact on the political, social, and economic landscape of Eurasia.

**Conclusion:** The Yescad was a pivotal event that marked a new era in world history. It united the Mongols under a single leadership, established a centralized government, and created a legal code that governed their vast empire.
