The Thief: The Scarab Beetle and the 1 Cl Stone

Introduction: The scarab beetle, with its iconic dung ball-rolling behavior, has long held a fascination for humans. In ancient Egypt, it was revered as a symbol of rebirth and the sun. However, one particular scarab beetle has gained notoriety for a daring heist.

The Heist: In 1922, the tomb of Pharaoh Tutankhamun was discovered in the Valley of the Kings. Among its many treasures was a valuable scarab beetle made of 1 carat (1 cl) of lapis lazuli stone. As archaeologists excavated the site, a group of thieves managed to steal the artifact, leaving behind a baffling mystery.

The Investigation: Egyptologists and detectives launched a meticulous investigation to uncover the identity of the thieves. They noticed unusual footprints around the tomb and discovered that tools used in the heist were not of Egyptian origin. Suspicion fell on a band of international criminals known as the "Golden Scarabs."

The Suspect: After months of surveillance, investigators tracked down a man named Abdul Rassoul. Known for his expertise in ancient Egyptian artifacts, Rassoul was believed to have been the mastermind behind the theft. He was arrested and charged with the crime.

The Recovery: In a dramatic turn of events, the stolen scarab beetle was recovered from Rassoul's possession. The artifact had been hidden inside a hollowed-out piece of furniture in his apartment. The recovery brought closure to the case and allowed the priceless relic to be returned to its rightful place in the Egyptian Museum.

injustices of the past, and astounded generations of readers the world over.

As the money had been left by thieves, Huck was able to split the money with Tom Sawyer, and the \$6000 belonging to Huck is placed in the bank. Why did Huck hide the money in the coffin? The front door is locked, however, and when Huck hears Mary Jane coming, he is forced to hide the gold in Peter Wilks' coffin. ~~Because so many people are in the house, Huck does not have the~~

opportunity to retrieve the money.

Why does Huck tell Mary Jane the truth? She is also crying because, in selling the Wilks's slaves, the duke and king separated a mother from her children. Moved by her tears, Huck blurts out that the family will be reunited in two weeks, and, thinking that in this case the truth is better than a lie, he says he can prove it.

Why does Huck smear pig blood in the cabin where he stayed? He takes all the cabin's supplies and puts them in the canoe; he then shoots a wild hog and uses its blood to make it look as if he were murdered. By staging his own murder, Huck thinks he can escape without the threat of being followed.
