**Can Meraki track me?** As far as tracking what you're doing when you're connected, that's no different than any other good firewall or network monitoring system. The Meraki can also do per-SSID and/or per-client bandwidth throttling, and has some rudimentary firewall capabilities for blocking site types.

**Why Cisco switches are so expensive?** They are expensive because you are basically paying for name, reputation, and skilled people to work on them. On top of that, they are pretty difficult for an average person to work with, we spend a lot of time and money on our Cisco certifications, so expect to pay up for us to service them too. Pretty much this.

**What are the disadvantages of Cisco Meraki?**

**What is the difference between Cisco ASA and Meraki?** The Meraki is nice to setup quick, but if you ever want to stop paying the yearly subscription, then it stops working. With an ASA, you own the device and if you stop any subscription, then the device itself will still pass traffic.

**What is the difference between Cisco Expressway and VCS?** The main differences between VCS and Cisco Expressway are the licenses, however, there are some situations where you may want to use one over the other. The VCS series is better suited for customers who use video communication only and have no need to support voice over IP phones and other voice related services.

**What is Cisco Web security Appliance?** Cisco WSA is an all-in-one highly secure web gateway that brings you strong protection, complete control, and investment value.

**What is Cisco Meraki switch used for?** Cisco Meraki allows organisations to manage their entire network, including wireless, security, EMM, communications, and security cameras, all from one easy-to-use centralised dashboard.

### **Wedding Planning and Management: Frequently Asked Questions**

Planning a wedding can be both exciting and overwhelming. To help you navigate the process seamlessly, we've compiled a list of common questions and answers about wedding planning and management:

---

**Q: When should I start planning my wedding? A:** The ideal time to start planning a wedding is 12-18 months in advance. This allows ample time to secure vendors, book venues, and plan the details without feeling rushed.

**Q: What is the first step in wedding planning? A:** The first step is to establish a budget and guest list. These factors will determine the scope and vision for your wedding, influencing venue selection, vendor hiring, and other aspects.

**Q: How do I find the best vendors? A:** Start by researching vendors online, reading reviews, and checking references. Attend bridal shows and consult with wedding planners for recommendations. Don't hesitate to ask vendors detailed questions about their services and experience.

**Q: How do I choose the perfect wedding venue? A:** Consider the guest count, style, location, and budget. Visit potential venues in person, ask about their capacity, amenities, and any restrictions. Schedule a walkthrough during the time of day you plan to host your wedding.

**Q: What are the key elements of wedding planning and management? A:** Key elements include venue booking, vendor selection, budget management, guest list management, timeline creation, day-of coordination, and post-wedding tasks. Hiring a wedding planner can assist with these aspects, ensuring a stress-free and seamless event.
