Who is the landlady in Flowers for Algernon? Mooney Mrs. Mooney is the landlady of Charlie's apartment building. She takes care of Charlie during his final days of regression. She is kind to him even though she does not understand what he is going through.

Was Dr. Nemur fully trained? In spite of his academic training, Nemur is clueless about the most basic moral problems, and—confirming his emotional immaturity—often treats Charlie Gordon with condescension or (after Charlie's intelligence eclipses his own) outright resentment.

Why We Make Mistakes, How We Look Without Seeing, Forget Things in Seconds, and Are All Pretty Sure We're Way Above Average

Question 1: Why do we make mistakes?

Answer: Our brains are wired to make mistakes. We rely on shortcuts and heuristics to make decisions quickly and efficiently, but these shortcuts can sometimes lead us astray. Additionally, our brains are constantly trying to predict what will happen next, and these predictions can sometimes be wrong.

Question 2: How can we see without looking?

Answer: Our brains are able to fill in gaps in our vision using a process called "filling in." This process is based on our previous experiences and expectations, and it allows us to perceive a complete image even when parts of it are missing.

Question 3: Why do we forget things in seconds?

Answer: Our brains are designed to focus on the most important information, and this can sometimes lead us to forget less important information. Additionally, our brains are constantly bombarded with new information, and this can make it difficult to retain information that is not immediately relevant.

Question 4: Why are we all pretty sure we're way above average?

Answer: This is known as the "above-average effect." It is a cognitive bias that leads us to believe that we are better than we actually are in comparison to others. This bias is likely due to a combination of factors, including our own self-serving biases and our tendency to compare ourselves to people who are similar to us.

Question 5: What can we do to overcome these cognitive biases?

Answer: One of the best ways to overcome cognitive biases is to be aware of them. Once we know that we are susceptible to certain biases, we can be more critical of our own thoughts and behaviors. Additionally, we can seek out information that challenges our beliefs and assumptions.
