In the 14th edition of their seminal work, "World Politics: Trends and Transformation," Charles W. Kegley and the late Eugene R. Answer: The rise of new powers has challenged the long-standing dominance of the United States and Europe. These emerging powers are asserting their political and economic influence, leading to a more multipolar world order.

Question 3: What role do non-state actors, such as multinational corporations and non-governmental organizations (NGOs), play in global politics?

Answer: Non-state actors have become increasingly influential in shaping global affairs. They participate in international organizations, lobby for policy changes, and provide assistance in areas such as development, humanitarian aid, and environmental protection.

Question 4: How has globalization affected the interdependence of nations?

Answer: Globalization has created a deeply interconnected world, where events in one region can have significant impacts on others. This interdependence has led to increased cooperation, but also heightened tensions and vulnerabilities.

Question 5: What are the challenges facing the spread of democratic norms worldwide?
