**Is STAAR test hard?** Part of the stress it causes for students and its inadequacy as a diagnostic tool is simple: STAAR is too hard. In some cases, reading passages have been judged to be two to three years ahead of the tested grade level based on independent readability tests, including the Lexile scale.

**How to beat the STAAR test?**

**What is a good STAAR score?** The students need a minimum of 25% to 35% in order to pass the tests. Every year the students receive a report card that states how well or how poorly they did in their tests.

**How can I help my child prepare for STAAR?** Make sure that your child gets a good night's sleep. Be encouraging - let your child know that you think he/she will do well on the test. Plan for the morning ahead – lay out clothes to wear; have backpack ready to go.

**What is the best way to prepare for the STAAR test?**

**How long is the 3rd grade STAAR test?** The STAAR assessments are designed so that students can complete the 3rd–5th grade assessments in two hours and the 6th–8th grade assessments in three hours. If needed, students can take up to four hours to complete their assessment.

**How to get ready for reading STAAR?** The students must consistently practice short answer questions regarding their reading subjects. Children must also be able to support their claims with evidence from their reading. Asking a question following each reading to yourself is a simple technique to help children prepare for the Texas STAAR test in Reading.
