Is DotCom Secrets still relevant? In the book, Russell reveals his greatest secrets to growing and scaling your business online. So, the short answer is: Yes, its

concepts and teachings are still relevant today because while funnel technology has changed, the need for business growth and profit haven't. So let's get into the DotCom Secrets book review.

Is DotCom Secrets for beginners? If you're a newbie, this book might just blow your mind. If you're an old hand at digital marketing, it'll improve the strategies you already have. No matter your level of experience, Brunson's easy-to-follow explanations and detailed funnel scripts will take your sales funnels to new heights.

What is the main point of DotCom Secrets? The Main Idea The best way to organize an online business is to build a good sales funnel — which consists of some bait (B), front-end offers (FE), mid-funnel offers (M) and back-end offers (BE). To optimize the funnel, you'll also need three good strategies for Traffic, Product and Communications.

Is .com secrets worth it? Not only is DotCom Secrets “worth it,” it's more than relevant to current times. Funnels are about to come out as one of the most fundamental and reliable ways to consistently convert a higher percentage of leads. Even if you don't sell with funnels, use the first two sections to nail down the details of your business.

What is the difference between DotCom Secrets and traffic secrets? His first book, DOTCOM SECRETS, helps marketers build their sales funnels online. The second book, EXPERT SECRETS, explains how marketers can master the art of converting leads into dream customers. TRAFFIC SECRETS explains how to fill those funnels with leads.

Should I read expert secrets or DotCom Secrets first? So it's recommended to read Expert Secrets first and then Dotcom Secrets. It's true that you can create both of these parts of your business simultaneously. But when first learning these techniques and strategies, it's best to learn them in order.
