Who is the greatest car engineer of all time?

Who started automotive engineering? The Invention of The Car In 1823 English engineer Samuel Brown invented the internal combustion engine. The design was directly improved upon in 1867 by Nikolaus August Otto, who was the first to create an engine that can efficiently burn fuel directly in a piston chamber.

What are the 3 types of mechanics?

What is the difference between a mechanic and an auto mechanic? Mechanics are more hands-on, as the term itself implies, and are the people who work under and on your car to find out what's making that noise. An automotive mechanic is primarily concerned with routine maintenance. They can also specialize in different areas of repair, but that's not a requirement of the job.

What do mechanics call themselves? The word 'technician' sounds more professional for what we do, but 'mechanic' is a word still used by the older generation," Cardoso says. At Universal Technical Institute, we prefer the term

“automotive technician” for those with the goal of becoming an auto tech.

Who is the real father of engineering? In India, September 15 is observed as National Engineer's Day. This day commemorates the birth of the first engineer Sir Mokshagundam Visvesvaraya, also known as the Father of Engineering. The general celebration offers recognition to all the civil engineers for their contributions to the nation's development.
