**What is the difference between Igcse maths core and extended?** It is important to remember that Core covers grades C to G and Extended covers grades A\* to E. If a student is securely in the 'middle' of the range, only the Extended tier will offer the grades the student may be capable of achieving.

**What is the difference between 0580 and 0607?** The main difference between the two is the number of papers you have to sit for. 0607 has 3 papers and graphic calculators are allowed. Whereas, 0580 has 2 papers and only scientific calculators are allowed. In terms of content, they are largely the same.

**How much is complete mathematics for Cambridge Igcse?** ? 1,550 Original price was: ? 1,550. ? 1,399 Current price is: ? 1,399. ? 1,100 Original price was: ? 1,100.

**What is the Igcse Programme from University of Cambridge International exam?** The IGCSE (International General Certificate of Secondary Education) programme is a Cambridge International programme attended by Year 10 and Year 11 students at International School. It is also the most popular international qualification for students aged 14-16 worldwide.

**Is extended harder than core?** Difficulty level The core syllabus is designed to be accessible to a wide range of students. It is less challenging compared to the extended syllabus and is ideal for students who may find the extended syllabus too demanding.

**Is extended maths IGCSE hard?** According to a survey performed, IGCSE Maths ranked 1st in the list of hardest IGCSE subjects. While individual experiences vary, certain statistics and expert opinions shed light on this subject, suggesting that the challenge is real but not impossible.

**What is the difference between Igcse maths 0580 and 0980?** The difference between math 0580 and 0980 is the grading system. Where 0980 is measured in the numbers 9-1. 0580 is measured on the scale of A\* -G.

**What is the difference between core maths and elective maths?** Core courses are mandatory courses you must study to meet the requirements of your program. Electives are courses you can choose, allowing you to study topics that interest you. Electives, when added to your core courses, make up the total number of units needed to complete your degree.

**What is the difference between math 105 and math 107?** MATH 107 is strictly for Education majors. MATH 105 is Applied College Algebra and MATH 103/104 is Applied College Algebra Fundamentals, but they have a different number of credit hours.

**How do you get an A \* in IGCSE maths?** Practice questions with past papers. Being a practical subject, the best way to prepare for Maths exams is to practice with exercise sheets, past papers and mock exams. Check your answers with a key paper, set a time limit and identify mistakes you need to avoid next time.

**Is Cambridge Maths worth it?** It is widely regarded as one of the most rewarding - and also demanding - undergraduate mathematics courses available. You will have to work hard, but will enjoy the opportunity to explore an exceptional range of interesting and beautiful mathematics, and to interact with other enthusiastic and talented mathematicians.

**How much is the IGCSE tuition fee?**

**Is IGCSE accepted in Harvard?** It is offered by three different exam boards including Cambridge Examinations, Pearson Edexcel and Oxford AQA. Students with IGCSE qualifications are recognised worldwide including at top universities such as Oxford, Harvard, MIT, Stanford, etc.

**Is IGCSE accepted in USA universities?** Is IGCSE Accepted In USA Universities? Yes, IGCSE is recognized by many universities in the USA as part of the application process. However, students might need to supplement it with additional qualifications such as A-Levels, IB, or SAT/ACT scores to meet admission requirements.

**What is the US equivalent of IGCSE?** For example, IGCSEs and GCSEs are considered equivalent to a United States high school diploma according to UCAS — even though IGCSEs are completed at age 16, two years before students would ordinarily finish the US high school diploma.

**What is the difference between core and extended IGCSE maths?** It provides a full overview of the subject and is targeted at students expected to achieve grades C to G. IGCSE Core vs. IGCSE Extended is also different from each other. According to the website, the Extended curriculum is more rigorous and designed for students expected to achieve grades A\* to E.

**Is core maths harder than GCSE?** If you choose to study Core Maths, you will learn some new topics, but it mostly involves maths that you will be familiar with from studying GCSE Mathematics. Where it differs is in its focus on developing the skills that you will need to apply maths to real-life problems that you will meet in study, work and life.

**What is the difference between standard and extended mathematics?** Standard mathematics aims to provide a sound knowledge of basic mathematical principles. Extended mathematics supplements the standard curriculum with additional topics and skills, providing greater breadth and depth of study.

**Which is the hardest IGCSE math?** IGCSE Additional Mathematics: IGCSE Additional Mathematics is considered one of the most challenging subjects. This is because it builds on the foundation of the regular IGCSE Mathematics syllabus and covers more advanced topics, such as calculus, matrices, and vectors.

**How many papers are there in IGCSE extended Maths?** All candidates take three papers. Candidates who have studied the Core syllabus content should be entered for Paper 1, Paper 3 and Paper 5. These candidates are eligible for grades C to G.

Candidates who have studied the Extended syllabus content should be entered for

**What influences motivation to learn?** Learners' ideas about their own competence, their values, and the preexisting interests they bring to a particular learning situation all influence motivation.

**What is the difference between inspiration and motivation?** Motivation often happens on a short-term basis, whereas inspiration sticks around for longer. Motivation comes from external sources, whereas inspiration stems from more internal stimulants. Inspiration can be more spontaneous, and we don't always see it coming, but motivation is predictable.

**How do you motivate someone?**

**How to influence and motivate others?**

**What is motivational influence?** Motivation Influence: Clear, well-defined goals provide employees with a sense of purpose and direction, motivating them to work towards specific achievements. Task Management becomes more effective when goals are transparent. Knowing the end goal enhances focus and helps in organising tasks for successful completion.

**What motivates you to learn?** Students may be motivated for several reasons, such as their interest in a topic or subject, their desire to impress their parents, teachers, or peers, prior success in a specific subject or topic, or the inherent desire to excel in academics.

**Is influence and inspiration the same thing?** Inspiration sparks an emotional quickening. It uplifts, infuses us with hope, generates new ideas and gives us the sense of possibility and faith. Influence exerts a specific, directive force to provoke change on a sometimes daily or consistent basis. Influence makes things happen.

**What is an example of motivation?** An example of motivation is watching an Olympic athlete and working hard in sports to become like that athlete. Other examples include working hard at achieving a degree to get a high paying job and taking a drink of water to quench a thirst.

**What are examples of inspiration and motivation?** For example, if someone has a goal to gain a promotion, it may motivate them to participate in a specific training course or handle more responsibilities at work. External factors are pushing the individual in a particular direction or toward an action deliberately. Meanwhile, inspiration often occurs spontaneously.

**How do I motivate myself?**

**How to motivate an unmotivated person?**

**What makes a good motivator?** A motivational leader inspires their team with enthusiasm and passion. They make people feel valued by investing time and learning about their priorities, strengths and needs. A motivated leader recognizes the value of hard work and encourages their employees' potential through meaningful challenges and goals.

**What inspires me in life?** Inspiration can come from various things like traveling, learning new things, and also from people, be it historical figures, family members, mentors, etc.

**How does a leader inspire?** Inspirational leaders set an example for collaboration; they pave the way for working together and building strong teams. Inspirational leaders recognize that no one can succeed alone, so they prioritize cooperation and model what it looks like to work together to accomplish mutual goals.

**What is the difference between motivation and leadership?** leadership is when someone takes charge and guides a group of people or a team. A leader makes

decisions, gives directions, and help the team work together to achieve goals. motivation on the other hand, is all about encouraging and inspiring others. it's like given them a reason to work hard and do their best.

**How do you motivate and influence others?**

**How to feel more motivated?**

**How does motivation affect someone?** Motivation is the process that initiates, guides, and maintains goal-oriented behaviors. For instance, motivation is what helps you lose extra weight, or pushes you to get that promotion at work. In short, motivation causes you to act in a way that gets you closer to your goals.

**What really motivates you?** Some common motivators include challenging work that allows you to learn and grow, feeling appreciated by your colleagues, or making a difference in the lives of others. What you share will give the interviewer a better understanding of what makes you tick and what kinds of work environments will be a good fit for you.

**How do I identify my motivation?**

**Who is your motivation and why?** “My biggest motivation is family. They are my biggest source of inspiration and my strongest supporters as well. When I see my parents working, it gives me the drive to be like them. Their dedication to working is what motivates me to be like them.

**What is influence motivation?** Motivating is the act of giving somebody a reason or incentive to do something, usually to support the self-preservation of the person giving the 'motive'. Influencing is a higher level skill than motivating. Influencing makes the desired action feel like the other person's idea - rather than the other way round.

**How do you inspire and influence?** Leaders inspire and influence others by being authentic, envisioning a compelling future, and building trust. They forge deep connections, demonstrate empathy, and lead by example. They see leadership not as a job or a title but as a craft. And like any craft, you can improve your skills through focused effort.

**What is called as influence?** Influence is the power to have an important effect on someone or something. If someone influences someone else, they are changing a person or thing in an indirect but important way. Sometimes a person who influences another doesn't intend to have any effect, but sometimes they are using influence to benefit themselves.

**What is motivation in one sentence?** the state or condition of being motivated or having a strong reason to act or accomplish something: We know that these students have strong motivation to learn.

**What is a good motivation?** Positive reinforcements are one of the most effective motivating factors. You can give yourself rewards for achieving your ultimate goal or for completing milestones along the way.

**What are the 4 basic motivations?**

**What are the 4 factors of motivation?**

**What influences individual motivation to learn?** Motivation to learn, in turn, is influenced by the individual's emotional states, beliefs, interests and goals, and habits of thinking. Intrinsic motivation to learn. The learner's creativity, higher-order thinking, and natural curiosity all contribute to motivation to learn.

**What are the three factors that influence motivation?** According to David McClelland, every individual experiences one of three primary driving motivators. These motivators include the need for achievement, the need for power or the need for affiliation. Understanding which team members respond to which motivators is key when implementing this theory.

**What inspires and motivates you to teach?** As a teacher, you can tap into your intrinsic motivation by focusing on the aspects of teaching that you love, such as designing lessons, interacting with students, or exploring new topics. You can also reflect on your own learning journey, and how teaching helps you grow as a person and a professional.
