**Why are there two Fullmetal Alchemist anime?** Fullmetal Alchemist had two different anime adaptations because of its immense popularity and early success as a manga. The first anime deviated from the manga's storyline as per the creator's request, while the second anime, Brotherhood, aimed to faithfully adapt the manga.

**Which Fullmetal Alchemist is canon?** The manga is canon, and Fullmetal Alchemist Brotherhood is considered to be Canon. I would recommend the show rather than the manga, but it's your choice. The only reason I'm writing more is that if I don't this comment will be collapsed, so yeah.

**Where can I watch the original Fullmetal Alchemist?** When it comes to the 2003 Fullmetal Alchemist anime, it is currently only available to watch with a subscription to the anime streaming service Funimation. On the other hand, the 2009 anime Fullmetal Alchemist Brotherhood is available on Netflix, Crunchyroll, Hulu, and Funimation.

**Which FMA anime is better?** Key Takeaways. Fullmetal Alchemist: Brotherhood is a more faithful adaptation of the manga, providing a story that fans of the original source material were looking for. The overall tone of Brotherhood is more light-hearted and approachable, which aligns with the tone of the original manga.

**Can I skip FMA and watch FMAB?** While the story does borrow some of the plot in the manga it recreates it in an original way. After a while the story doesn't relate to the manga at all. But yes you can in fact skip FMA and watch FMAB instead.

**Do I watch FMA or FMAB first?** The First Fullmetal Alchemist Anime Should Be Watched Before Brotherhood. As many fans of the franchise have noted, it's best to watch Fullmetal Alchemist and its movie continuation before reading the manga or watching Fullmetal Alchemist: Brotherhood.

**Is there a difference between Fullmetal Alchemist and Brotherhood?** They're two sides of the same coin; Fullmetal Alchemist is the original anime release whereas Brotherhood is a retelling of the same story. Brotherhood is widely regarded as the more faithful adaptation of the manga and includes numerous battles, encounters and plots that the original does not.

**Is Edward Elric a girl?** Edward Elric (エドワード・エルリック, Edow?do Erurikku), given the title Fullmetal Alchemist (フルメタル・アルケミスト, Hagane no Renkinjutsushi) is the youngest State Alchemist in the history of the organization having gained his admittance at the age of 12. He is also the main protagonist of the Fullmetal Alchemist franchise.

**Is Envy from FMA a girl?** Envy (エんヴィ, Env?) is a homunculus created by Father in FullMetal Alchemist. Being sexless, Envy has the power to assume any form he wishes; this skill allows him to infiltrate places undetected. ==Appearance== Envy is a skinny, androgynous, young male with long, messy greenish-black hair.

**What is the original Fullmetal Alchemist called?** Fullmetal Alchemist (Japanese: フルメタル・アルケミスト, Hepburn: Hagane no Renkinjutsushi, lit. "Alchemist of Steel") is a Japanese manga series written and illustrated by Hiromu Arakawa.

**Why did Netflix remove Fullmetal Alchemist?** Netflix often removes shows due to licensing agreements expiring. It's likely Fullmetal Alchemist's streaming rights moved to another service like Crunchyroll or Funimation.

**How does the original Fullmetal Alchemist anime end?** Alphonse regains his body, but Edward is left stranded in another dimension, post-Great War Europe. The original series ends with Edward stuck in a world where the combustion engine became the dominant technology over alchemy, separated from his beloved brother.

**Which is better AOT or Fullmetal Alchemist?** The comparison between FMA and AOT is quite hard. Where FMA is a happy anime with some instances where sadness is involved, on the other hand AOT is an anime that is purely on the survival

of humans. If you are going for the thrills I will say AOT is much more better option.

**What anime beat Fullmetal Alchemist?** Oshi no Ko beats Fullmetal Alchemist Brotherhood and Demon Slayer - Find out why - Hindustan Times.

**Which is better One Piece or Fullmetal Alchemist?** In my opinion, FMAB is better than One Piece also because FMAB had fewer episodes that save time, unlike One Piece. I'm a HUGE FMAB fan, so of course I'll think like this.

**Which version of Fullmetal Alchemist is best?** Opinion is not monolithic, and there have been various defenses of FMA over the years. But it's often acknowledged that Brotherhood is "generally considered" the better adaptation.

**Is there a difference ending in FMA and FMAB?** Ending: At the end of FMA Ed and Al are separated. Ed ends up in the real world and Al remains in the world of FMA. In FMAB Al sacrifices himself to save Ed. Ed then saves Al by sacrificing his ability to do alchemy.

**Is FMAB more accurate than FMA?** Due to divergences from the source material, a new version of the anime was made titled Fullmetal Alchemist: Brotherhood that was more accurate.

**What's the difference between Fullmetal Alchemist and Fullmetal Alchemist: Brotherhood?** Whereas Brotherhood treats Shou and Barry as minor antagonists, FMA 2003 spends more time on their development over multiple episodes in order to make each of their fates that much more impactful. Regarding main antagonists, the 2003 anime's top villain is Dante, an anime-original character created solely for the show.

**How can I watch Fullmetal Alchemist in order?**

**How many episodes of FMA should I watch before FMAB?** Whether or not the first 10 eps are sped up or not, the reality is that the first 25 eps of FMA are far superior, and then eps 10-64 of Brotherhood are superior and this is where the story clearly diverges. Buddy, the show doesn't make narrative sense if you watch it the way you watch it.

**What are the two versions of Fullmetal Alchemist?** Fullmetal Alchemist was adapted into two separate anime series for television: a loose anime adaption with a mostly original story titled Fullmetal Alchemist in 2003–2004, and a retelling that faithfully adapts the original manga in 2009–2010 titled Fullmetal Alchemist: Brotherhood.

**Is Fullmetal Alchemist and Fullmetal Alchemist: Brotherhood the same?** They're two sides of the same coin; Fullmetal Alchemist is the original anime release whereas Brotherhood is a retelling of the same story. Brotherhood is widely regarded as the more faithful adaptation of the manga and includes numerous battles, encounters and plots that the original does not.

**What is the difference between 2003 and 2009 Fullmetal Alchemist?** The 2003 anime is slower-paced and more character-driven than the action-oriented 2009 series. While both shows do a good job of developing characters and interspersing moments of calm with intense action scenes, FMA 2003 is best described as a drama.

**Is Fullmetal Alchemist: Brotherhood a part 2 of Fullmetal Alchemist?** Neither, actually. The 2003 Fullmetal Alchemist anime tells a different story than the original manga, while Fullmetal Alchemist Brotherhood is a direct adaptation of the manga into animation. The two are similar, but tell a completely different story.
