1. Apa inti dari pemikiran ekonomi Islam klasik?

Ekonomi Islam klasik menekankan keadilan, keseimbangan, dan kesejahteraan sosial. Para pemikir seperti al-Ghazali dan Ibn Khaldun berpendapat bahwa ekonomi harus didasarkan pada prinsip-prinsip syariah, yang mengatur aspek-aspek seperti kepemilikan, distribusi kekayaan, dan transaksi keuangan.

2. Bagaimana ekonomi Islam dipengaruhi oleh Barat selama era kolonial?

Selama periode kolonial, ekonomi Islam dirugikan oleh kebijakan ekonomi Barat yang mengeksploitasi sumber daya dan melemahkan industri lokal. Hal ini menyebabkan kemunduran pemikiran ekonomi Islam dan munculnya pengaruh kapitalisme Barat.

3. Apa peran para pemikir modern dalam kebangkitan ekonomi Islam?

Pada abad ke-20, para pemikir seperti Muhammad Baqir al-Sadr dan Fazlur Rahman memainkan peran penting dalam merevitalisasi ekonomi Islam. Mereka mengadvokasi sistem ekonomi yang sejalan dengan prinsip-prinsip syariah dan relevan dengan tantangan ekonomi modern.

5. Apa tantangan dan peluang yang dihadapi ekonomi Islam di masa depan?

Ekonomi Islam menghadapi tantangan seperti integrasi dengan ekonomi global dan mengatasi kemiskinan. Namun, ekonomi Islam juga memiliki potensi besar untuk memberikan solusi bagi masalah ekonomi kontemporer, seperti ketidaksetaraan dan ketidakstabilan finansial.

What is emotive language according to I.A. Richards? I.A. Richards discusses the two uses of language: the scientific use and the emotive use. The scientific use aims for precise and consistent communication of facts, while the emotive use conveys or evokes emotions in the reader.

What are the two uses of language by I.A. Richards? The scientific use of language thus relies on reference undistorted by the receiving mind. By contrast there is an emotive use of language which is designed to arouse emotions. Richards says, "A statement may be used for the sake of reference, true or false, which it causes. This is the scientific use of language."

What are the important principles of criticism according to I.A. Richards? Richards in *Principles of Literary Criticism* (1924) developed a closely reasoned theory of the mind's response to rhythm and metre. His theory is organic and contextual; the sound effects of prosody have little psychological effect by themselves.

What are the principles of literary criticism by I.A. Richards Chapter 34? In his "Principles of Literary Criticism" chapter 34, he discusses the most neglected subject, i.e. The Theory of Language and The Two Uses of Language. To understand much the theory of poetry and what is said about poetry, a clear comprehension of the differences between the uses of language is indispensable.

What is Richards's theory of language? I.A. Richards was an influential 20th century English literary critic known for developing the concept of four kinds of meaning in a text. According to Richards, the total meaning of a text is a blend of sense, feeling, tone, and intention. Sense refers to the literal or descriptive meaning.

Why is I.A. Richards important for new criticism? The works of Cambridge scholar I. A. Richards, especially his *Practical Criticism*, *The Principles of Literary Criticism* and *The Meaning of Meaning*, which offered what was claimed to be an empirical scientific approach, were important to the development of a New Critical methodology.

What is the theory of communication by I.A. Richards? According to Richards communication is a process that organizes the impulses with adequate knowledge and that certain impulses are common to all irrespective of cultural differences. He

asserts that imagination facilitates communication and diminishes the variation in experiences.

What are the concepts of I.A. Richards? A student of psychology and philosophy along with literary forms, Richards concluded that poetry performs a therapeutic function by coordinating a variety of human impulses into an aesthetic whole, helping both the writer and the reader maintain their psychological well-being.

What is the main idea in Principles of Literary Criticism? It emphasizes the importance of understanding both the text and the reader's response, advocating for a balanced approach. Richards introduces key concepts such as 'practical criticism' and 'affective fallacy,' urging critics to focus on the text's intrinsic qualities rather than external factors.

What are the four kinds of meaning practical criticism by I.A. Richards? The correct answer is 'Sense, Feeling, Tone and Intention'. The four kinds of meaning was proposed by I.A. Richards in his seminal book *Practical Criticism: A Study of Literary Judgement*.

How does Richards view literary texts? The work of literature, for Richards, was to be therapeutic. It was on the basis of this kind of aesthetic thinking, which sees the aesthetic as a mode of instrumental, rather than final value that Richards develops the methodological innovations of reading practises.

What is the value of poetry according to IA Richards? The value of art or poetry is that it enables the mind to achieve the poise or balance more quickly or completely than it could do otherwise. In poetry there is an art of resolution and balancing of impulses.

What is the title of chapter 2 of Principles of Literary Criticism? In chapter two titled "The Phantom Aesthetic Taste", Richards points out that the grave defect of aesthetics has been the neglect of consideration of the value of art.

What is Ethnographic Fieldnote Writing?

Ethnographic fieldnotes are detailed observations and reflections recorded by researchers during their fieldwork. They capture the researcher's experiences, interactions, and insights within a specific cultural setting. The purpose of fieldnote writing is to provide a rich, qualitative account of the research participants' lives and behaviors.

Key Principles of Writing Ethnographic Fieldnotes

- **Be descriptive and detailed:** Note down everything you observe, even seemingly mundane details. Use specific language and avoid generalizations.
- **Record your thoughts and feelings:** Document your reactions, questions, and observations. This introspective perspective provides valuable context for understanding your research findings.
- **Use descriptive categories:** Organize your notes using specific categories that reflect the research questions or concepts you are exploring.
- **Keep a consistent style:** Establish a regular writing routine and use a consistent voice, tone, and level of detail to maintain the integrity of your notes.

Tips for Writing Effective Fieldnotes

- **Write daily:** Even if you don't have extensive notes to record, jot down brief observations and reminders.
- **Use a dedicated notebook:** Keep all your fieldnotes in a single, organized notebook to facilitate retrieval and analysis.
- **Include time-date stamps:** Document the exact time and date of your observations to provide a chronological context.
- **Use different colors or fonts:** Assign different colors or fonts to different types of notes (e.g., observations, reflections, questions).
- **Transcribe notes promptly:** As soon as possible after fieldwork, transcribe your handwritten notes into a digital format to ensure clarity and

accessibility.

Conclusion

Ethnographic fieldnotes are a critical component of qualitative research. By following the principles and tips outlined in this article, researchers can produce comprehensive and insightful fieldnotes that serve as a foundation for rich and meaningful analyses of cultural experiences and behaviors.
