It evaluates staff procedures, methods, and lab equipment, ensuring you can produce accurate results in your lab.

COMPUTER QUIZ QUESTION WITH ANSWERS

What does ISO IEC 17025 stand for? ISO/IEC 17025 is the international standard for testing and calibration laboratories. It sets out requirements for the competence, impartiality, and consistent operation of laboratories, ensuring the accuracy and reliability of their testing and calibration results.

What are the key requirements of ISO 17025?

How long does ISO 17025 accreditation last? The accreditation bodies must comply with the ILAC (International Laboratory Accreditation Cooperation) policy that accreditation cycles must not be longer than 5 years. Typically, this period is four years for some laboratories, but for others, it can be as short as two years or the maximum five years.

What is the principle of ISO IEC 17025? The principles of ISO 17025 serve as the backbone for laboratory operations. It holds significant importance in ensuring the integrity and reliability of testing and calibration activities. One of the key benefits of complying with these principles is the assurance of accurate and reliable results.

What does ISO and IEC stand for? ISO stands for the International Organization for Standardization and IEC stands for the International Electrotechnical Commission. Together, the two organizations work to develop, maintain, and promote standards in the fields of science and technology.

Is ISO 17025 same as ISO 9001? The main difference between ISO 9001 and ISO 17025 is their focus and application. ISO 9001 is a generic quality management system standard that can be applied to any organization, while ISO 17025 is a specific standard that applies to testing and calibration laboratories.

What is the difference between ISO 13485 and ISO 17025? ISO 13485 certification, as well as ISO 9000 registration, ensures compliance to a specific quality system, typically for a manufacturing process. Although laboratories can work under these quality systems, ISO 17025 is specific for the laboratory setting.
