Not only does a stabled horse remain clean and accessible when you want to ride, but there is also a significantly reduced risk of injury.

Do horses get bored in stables? Being stabled for long periods of time can quickly make horses bored.

Why do horses legs fill when stabled? It is more common that the hind legs will swell rather than the front legs but all are susceptible. Swelling in the horses legs is often caused by a build-up of fluid, called oedema. Oedema or, more commonly known in the horse world, as stocking up, is caused by, standing in the same position for too long.

Do you have to pick up horse poop in pasture? Cleaning manure from pastures accomplishes several important things: It reduces internal parasite contamination; It eliminates breeding habitats for flies; and, It minimizes adverse effects on water sources from drainage across a manure-ridden pasture.

How often do horses shower? A weekly bath with an antimicrobial shampoo is probably the best choice for these wet days, skipping a few days between baths to avoid drying essential oils out of your horse's skin. That leads us to next factors to consider: the condition of your horse's coat and the type of shampoo.

Why do horses lick muck? Why does my horse eat mud? Dirt is a natural part of the equine diet. It contains minerals in bio-available form that the horse needs for various metabolic functions so eating dirt is quite normal for horses .
