Understanding Journals and Their Impact in Accounting Research\*\*

### **Journal Impact: A Measure of Prestige and Influence**

The impact factor measures the average number of citations received by articles published in a journal over a specific period. It is a key indicator of a journal's reputation and influence within its field.

### **International Journal of Accounting: Impact and Acceptance**

The International Journal of Accounting (IJA) boasts an impact factor of 4.225 as of 2022. This indicates that articles published in IJA are widely cited and highly regarded in the accounting community. Its acceptance rate, however, is relatively low, hovering around 15%.

### **Elsevier: A Major Publisher in the Scientific Landscape**

Elsevier is a renowned publisher that produces a wide range of journals, including IJA. Elsevier is not a journal itself.

### **Understanding Journaling in Accounting**

Journaling in accounting refers to the systematic recording of financial transactions. It involves capturing the details of each transaction, such as its date, amount, and account involved, in a chronological order.

### **Journals with High Impact Factors**

- Journal of Accounting Research (impact factor: 7.831)
- Contemporary Accounting Research (impact factor: 6.678)
- Auditing: A Journal of Practice & Theory (impact factor: 5.712)

### **Acceptance Rates and Fees for Journal Submissions**

- MDPI journals typically have higher acceptance rates, ranging from 50% to 80%.
- Publication fees for international journals vary widely, but can range from \$1,000 to \$3,000.

### **Comparing Publishers: Elsevier vs. Springer**

Both Elsevier and Springer are reputable publishers in academia. Springer is known for its technical and scientific journals, while Elsevier excels in various fields, including accounting.

### **Scopus and Elsevier: Distinct Entities**

Scopus is an abstract and citation database owned by Elsevier. While many Elsevier journals are indexed in Scopus, they are not the same entity.

### **Why Choose Elsevier Journals?**

Elsevier journals offer several advantages, including:

- High impact factors
- Wide reach and recognition
- Rigorous peer-review process
- Online accessibility and archiving

### **Accounting Research Journals**

The four primary journals in accounting are:

- Journal of Accounting Research

- Contemporary Accounting Research
- Auditing: A Journal of Practice & Theory
- Accounting, Organizations and Society

## **Types and Number of Journals in Accounting**

There are mainly two types of journals in accounting:

- General journals, which record all transactions
- Special journals, which record specific types of transactions

The exact number of accounting journals is vast and varies depending on the scope and focus of the field.

## **Publisher Reputation and Journal Quality**

Elsevier is a renowned publisher with a strong reputation. However, the quality of individual journals can vary, so it is important to consider the impact factor and peer-review process when evaluating a journal.

## **Impact Factors for Notable Journals**

- Journal of the AIS: 3.786
- ICA Journal: 2.476
- International Journal of Current Research: 0.447

## **Factors Influencing International Accounting**

- Globalized markets
- Cross-border transactions
- Cultural differences
- Tax regulations
