

# Blue prism group plc

## Download Complete File

**Did Blue Prism CEO step down?** Kingdon returned as chairman in 2019 and became CEO in April 2020 when former CEO Alastair Bathgate stepped down, Kingdon remained CEO until 2022.

**What is Blue Prism software used for?** Blue Prism is a global pioneer in intelligent enterprise automation, improving how employees work. The Blue Prism helps organizations enhance operational efficiency and agility by making it simple for individuals to automate tasks.

**Is Blue Prism IBM?** IBM and SS&C Blue Prism have partnered to enable businesses with extreme intelligent automation capabilities across industries including Insurance, Banking, Public Sector, Healthcare Services and others.

**Is Blue Prism free?** Experience SS&C Blue Prism on AWS Installed on your own AWS environment, supported by our training materials and product documentation, you can use all the features of the full enterprise product for free.

**What happened to Blue Prism?** 2022 - SS&C Acquisition Blue Prism is acquired by SS&C, becoming SS&C Blue Prism to enhance its position as a software and services leader to the financial and healthcare sectors.

**Who is prism owner?** Founded in 2017 by Singaporean Jonathan Tan, PRISM+ made a strong entry into the country with its curved performance PC gaming monitors and built a following with its affordable products.

**Is Blue Prism good?** The actual software is also excellent and has a huge amount of capability both with the out the box functionality and the bespoke code which the product allows. It has helped us as a company to automate some 80 plus processes

within 2 years, providing a large benefit to our business.

**What is Blue Prism in SAP?** SS&C Blue Prism's SAP accelerators offer prebuilt automation components that mimic human-user interactions, helping you accelerate operations and migrations for ECC and S/4HANA faster and with significantly fewer costs. With our accelerator, there's no need to create automations for your SAP software from scratch.

**Which is better, UiPath or Blue Prism?** Blue Prism outpaces UiPath when it comes to effective debugging. Blue Prism allows you to interact dynamically with variables and scenarios to test and resolve issues. With UiPath, debugging is more challenging as you cannot change variables during testing; you can only view the values during the debugging execution.

**Which companies use Blue Prism?**
