Believe me he is one of the best teacher from whom i have studied Organic (I was in Resonance Kota and learnt from YouTube due to lockdown) . He simplifies every topics and touched Adv level.

Is Chem 101 organic chemistry? CHEM 101 GENERAL CHEMISTRY I This course builds upon basic chemistry fundamentals with a laboratory component, emphasizing fundamental principles of inorganic and physical chemistry.

Is organic chemistry the hardest class ever? Organic Chemistry – This course weeds out the doctors from the wannabes. It's certainly difficult. There's a consensus that it takes a lot of work, memorization, and commitment. With motivation, however, it is manageable.

How many students fail organic chemistry? Currently, the fail rate for organic chemistry across the nation is over 50%, with the course being described as the ultimate weed- out course. 1 It has a notorious reputation, and many professors have difficulty achieving high success rates in their classes.

Why is organic chemistry 1 so hard? You essentially need to know the mechanism of how the reaction works and be able to predict the product and reactant. Seems simple enough, right? The problem is there are hundreds of reactions you have to learn. You have to know them forwards, backwards, and inside out.

Is organic chemistry harder than calculus?

Is organic chemistry A level hard? Chemistry a-level is extremely hard compared to other subjects, with only 13.6% achieving an A* in 2022 and 24.4% getting an A. Many students struggle with chemistry in school and wonder if they have what it takes to handle the rigours of an A-Level chemistry course.

What is the most failed high school class? Algebra I is the single most failed course in American high schools. Thirty-three percent of students in California, for example, took Algebra I at least twice during their high school careers. And students of color or those experiencing poverty are overrepresented in this group.

What is the hardest chapter in organic chemistry? Organic Chemistry may seem easy at first, but it becomes challenging as you delve deeper into concepts like preparations. Thermodynamics and Equilibrium are considered the toughest chapters.

Is there a lot of math in organic chemistry? There's Little Math Involved Math is often a subject where science and pre-med students struggle. Math deals with abstract concepts and is represented by symbols, which makes it harder for some students to grasp. Thankfully, in most cases, organic chemistry does not require any math beyond basic arithmetic.

Is a B+ Inorganic Chemistry bad for medical school? It is notoriously difficult. However, if a student has all A's in other courses in the pre-medical curriculum a B in Organic Chemistry will probably not be seen as problematic. Possibly. If that's the

only B in a required course and your MCAT score is high enough, you could be a competitive candidate.

What is the hardest chemistry class in college? Organic Chemistry tends to be another rigorous class, with its need to memorize and apply a vast array of reactions and mechanisms.

Why do so many people struggle with organic chemistry? Everything is new and the scientific complexity can make retaining the information difficult. 2. Organic chemistry requires visualization of three-dimensional molecules in two dimensions. When molecules (chemical structures) are drawn on paper, they're represented in two dimensions.

Is Orgo 1 or 2 easier? Organic Chemistry 1 and 2 each have their own challenges, and the difficulty can depend on factors like your professor, your study habits, and your background in chemistry. That being said, many students find Orgo 2 to be more challenging than Orgo 1 for a few reasons.

Which is harder, physics or organic chemistry? If you are comfortable with advanced mathematics, physics will be fairly easy. If you have a hard time mastering huge quantities of material which must be understood one by one, instead of following from a basic principle, you'll have a tough time with organic chemistry.

How many people pass organic chemistry the first time? How To Manage Your Class If You Are Retaking Organic Chemistry. Organic chemistry has a reputation as being the most challenging science course. On average, 40% of students don't pass on the first attempt. For most of those students, their final grade has very little to do with their ability to learn the material.

Why is organic chemistry the hardest class? Organic chemistry requires a detailed understanding of chemical structures and reactions, asking students to visualize molecules in multiple dimensions and follow the flow of electrons in a reaction.

What math is used in organic chemistry? If you're just talking about practical organic chemistry, simple algebra will get you through the day. If you go any deeper into theoretical organic chemistry, you'll need calculus (the equivalent of 3 semesters

university level), linear algebra, and differential equations.

What is the hardest branch of Chem?

Which is harder, math or chemistry? In general the answer to the question is subjective. If hardcore math like theorems and their proofs interest you, you will feel mathematics is easier than chemistry. If you like the application of these theorems, then chemistry is easier.

Is chemistry harder than biology? For some, Chemistry may be considered more difficult due to the amount of math and abstract concepts involved, while others might find Biology challenging because of the amount of memorization required. You should consider your personal interests and previous experiences with these subjects when making your decision.

Is organic chemistry or biochemistry more difficult? In sum, the best answer I can give for today's options is that “organic chemistry lite” is easier than “biochemistry heavy;” “organic chemistry heavy” is harder than “biochemistry lite;” “organic chemistry heavy” is about the same difficulty as “biochemistry heavy.”

Who is the best teacher of chemistry in the world? KAZINFORM 25-year-old Zhiger Teleukhanov from Aktau was recognized as the world's best chemistry teacher. The international contest bringing together educators from more than 100 nations of the world was held in London, Kazinform reports. Zhiger Teleukhanov is the graduate of the Bilim Innovation lyceum.
