## **The Collapse of Globalism and Reinventing the World: An Interview with John Ralston Saul**

In his book "The Collapse of Globalism and the Reinvention of the World," renowned author and public intellectual John Ralston Saul argues for a radical rethinking of the global economic and political order that has dominated the past few decades. In an exclusive interview, Saul shares his insights on the current state of globalism and its implications for the future.

**Q: What do you mean by "the collapse of globalism"?**

Saul: Globalism refers to the belief that a single, interconnected global economy and political system will lead to prosperity and progress for all. However, this ideology has failed to deliver on its promises, resulting in rising inequality, environmental degradation, and social unrest. The collapse of globalism signifies the end of this outdated and unsustainable paradigm.

**Q: What are the consequences of this collapse?**

Saul: The collapse of globalism has created a vacuum that is being filled by a resurgence of nationalism, populism, and authoritarianism. We are witnessing a breakdown of trust in institutions and a fragmentation of the global community. This has serious implications for our ability to address common challenges, such as climate change and economic instability.

**Q: How can we reinvent the world in a post-globalist era?**

Saul: We need to focus on localism and decentralization, empowering communities and regions to develop their own economic and political models. We also need to prioritize sustainability, equity, and inclusiveness. This means investing in education, healthcare, and social programs that benefit everyone.

---

**Q: What role do governments play in this reinvention process?**

Saul: Governments have a crucial role to play in creating a conducive environment for localism and decentralized decision-making. They must enact policies that promote economic diversity, support social justice, and protect the environment. Governments must also foster dialogue and collaboration between different groups within society.

**Q: What can individuals do to contribute to this transformation?**

Saul: Individuals can engage in local initiatives that support their communities, such as farmers' markets, community gardens, and social enterprises. They can also stay informed about global issues and advocate for policies that prioritize human well-being over corporate profits. By working together, we can create a more just, equitable, and sustainable world order that serves the interests of all.
