**You Can Make Anything Sad: An Interview with Spencer Madsen**

**"You Can Make Anything Sad" is a heartbreaking and thought-provoking memoir by Spencer Madsen. In it, he explores the complexities of grief, loss, and depression.**

**What inspired you to write "You Can Make Anything Sad"?**

The death of my mother when I was 11 was the catalyst for the book. I didn't know how to process my grief at the time, and I didn't have the language to express it. I turned to writing as a way to cope, and the book grew out of that.

**The book is a very personal look at grief and depression. Was it difficult to write?**

It was definitely difficult at times. I had to revisit some painful memories and emotions, but I also found it to be a cathartic experience. Writing the book helped me to understand my own grief and depression better, and it gave me a way to share my story with others who might be going through similar experiences.

**How do you hope your book will help others?**

I hope that my book will help others to feel less alone in their grief and depression. I want them to know that they are not alone, and that there is hope. I also hope that

my book will help to break down the stigma surrounding mental illness.

**What advice would you give to someone who is struggling with grief or depression?**

My advice would be to seek professional help. A therapist can help you to process your emotions and develop coping mechanisms. I would also encourage people to talk to their friends and family about what they are going through. Sharing your story can be a powerful way to heal.

**Finally, what is the most important lesson you have learned from your experiences with grief and depression?**

The most important lesson I have learned is that it is possible to heal and move on from grief and depression. It takes time and effort, but it is possible. I hope that my book will help others to find hope and healing on their own journey.
