### **What is the mysterious chord?**

**What is the saddest chord in music?** One of the most common chords associated with sadness is the minor chord. It is made up of three notes – the root, the minor third, and the fifth. **What piano chords sound happy?** To create happy chord progressions, you can simply use the I, IV, and V chords (or 1-4-5). Each one of these chords is a major chord, and they work together in any order to create a happy sound. You can also add energy or enthusiasm to the progression by varying the rhythm.
