Is RS Khurmi good for gates? Bansal , R.S.Khurmi etc contain almost all the content required for GATE. ?These books were written with some other purpose and were not specifically meant for GATE exam, rather for those who want to develop particularly/specifically in that subject..

Which material is best for gate? Steel is a rust-proof material that has an inherent sheen. In this compound wall grille design, the stark effect of the narrow steel panels is balanced by wood, which adds a touch of warmth to the compound wall gate. The most commonly seen material for compound wall gates is wrought iron.

Which Colour is good for gates?

What wood is best for outside gate? Redwood is highly prized for its natural beauty, stability, workability and sustainability. These characteristics make it a popular choice for a wide range of applications, including outdoor structures such as garden gates.

What is the best material for driveway gates? Compared to steel, aluminium is a more luxurious material for those prioritising the look of their gate, often lending itself to a modern appearance. It offers many benefits, including: Aesthetics. Aluminium gates offer a more premium and contemporary due to it being cleaner and more polished than steel.

Are wooden or metal gates better? Wood expands in hot weather, absorbs moisture when it rains, often resulting in a rotten gate or an insect infestation unless regular care and maintenance are applied. In comparison, steel gates are very

reliable, especially when they're coated in particular materials or galvanised to provide rust resistance.

Which direction is good for house entrance? The main door direction as per Vastu should always be to the northeast, north, east or west, as these directions are considered propitious. Avoid having the main entrance gate in the southwest, south, northwest (north side) or southeast directions.

What paint to use for gates? Oil-based or alkyd paints are ideal options for wrought iron gates because they create a durable finish that repels water and is resistant to stains, scuffs, and dents. If your gate is made of galvanized metal, however, it's best to steer clear of oil-based primers and paints.
