Is it better to learn Chinese or Mandarin? So Which Chinese Language Should I Learn? Mandarin is the lingua franca and the sole official language of China, so if you plan on doing business in China or traveling around the country, Mandarin is the language to learn.

What is the most effective way to learn Chinese? Immersion can be the fastest way to learn Chinese. Practice speaking on your own. Wiebe suggests speaking Chinese to yourself for an hour every day. "Keep a notebook for jotting down whatever you don't know how to say and then learn how to say that," she says.

What is the easiest Chinese dialect to learn? As we covered above, Mandarin is easier to learn in regards to both writing and speaking. Cantonese is seen to be more difficult because it has from 6 to 9 tones, each of which signify different things (while Mandarin only has 4 tones).

What is the hardest language in the world? Most difficult language in the world: The official language of Mainland China, Taiwan, and Singapore, Mandarin has consistently been ranked as the hardest language in the world. Mandarin is spoken by over 1.118 billion people and is the second most spoken language in the world only second to English.

Is Japanese or Chinese harder? While both Chinese and Japanese are complicated in terms of writing, I'd say that Japanese represents the bigger challenge. Not because learning to read and write Japanese is harder, but because you'll need to learn a lot more than just a writing system.

Can you read Chinese but not speak it? They can do this because Chinese characters are not an alphabet and do not really note exactly how to say any particular word.

How many years does it take to learn Chinese fluently? It takes about 4-7 years (roughly 2200 to 4000 hours) to become fluent in every aspect of the language, if you spend at least an hour and a half to study every day. However, it's quite common for learners to become more fluent in some areas than others depending on how they allotted their study time.

Is it worth learning Chinese as an American? With 1.4 billion native speakers, Chinese is the most spoken language in the world. If you know Chinese, you can communicate with around 20% of the global population! Being able to speak directly to Chinese people in their own language can lead to meaningful connections and illuminating cultural exchange.

Is learning Chinese good for brain? In addition to the unique tonal distinctions of Chinese, the practice of handwriting, especially of Chinese characters, will aid the development of motor skills, learning shapes and letters, the visual identification of graphics, and will keep the mind sharp.
