**What do black demons do?** Black Demons are a race of creatures which are born from Mortal souls who, for various reasons, do not cross over to Afterlife after their death and stay in the Living World for too long. They are corrupt spirits with supernatural powers which devour the souls of both living and deceased sentient beings.

**Is Black Demon based on a true story?** Written by Boise Esquerra and directed by Adrian Grünberg, The Black Demon is a horror thriller based on a true Mexican legend of El Demonio Negro, a monstrous shark-like creature that reaches lengths of over 50ft with a killer instinct.

**Where can I find black demons?** In the Wilderness, black demons are only found in two locations; Edgeville Dungeon and the Wilderness Slayer Cave. Both spots are under 20 Wilderness, though the latter is a multicombat area.

**Is Black Demon a good movie?** This is not a movie that I will recommend you to rush out and get to watch. Nor is it a movie that I will ever return to watch a second time. My rating of director Adrian Grunberg's 2023 movie "The Black Demon" lands on three out of ten stars.

**What is the rarest type of demon?**

**What is a black demon weak to?** Black demons are large demons that inhabit a few dungeons throughout Gielinor. As demons, they have high combat stats but rather low Defence for their level. They are weak to Silverlight, Darklight and Arclight; as with most demons, they are also weak to magical attacks. A black demon is defeated during The Grand Tree.
