1. What inspired you to write the Slated trilogy?

"The initial inspiration came from the idea of a dystopian society where people are judged solely on their intelligence. I wanted to explore the consequences of a world where standardized testing becomes the ultimate measure of worth and the lengths people would go to succeed."

2. What do you hope readers will take away from the books?

"I hope readers will question the value of standardized testing and the importance of true intelligence. I also want them to consider the devastating effects of prejudice and the strength of the human spirit in the face of adversity."

3. What was the biggest challenge you faced in writing the trilogy?

"Crafting a world that was both believable and terrifying was a major challenge. I wanted to create a society that was both familiar and utterly foreign, where the consequences of failing were dire."

4. What was your favorite part of the writing process?

"Developing the characters was my favorite aspect. I loved creating these complex, flawed individuals who were forced to make difficult choices. Exploring their strengths, weaknesses, and motivations was a rewarding experience."

5. What can readers expect from the upcoming PDF format of the first book, "Slated"?
