Stephen Bohr's Notes on Daniel 8

Stephen Bohr, a renowned Seventh-day Adventist theologian, has provided valuable insights into the book of Daniel through his extensive notes. In particular, his notes on Daniel 8 offer a comprehensive analysis of this pivotal chapter.

1. Who is the Ram with Two Horns?

Bohr argues that the ram represents the Medo-Persian Empire, which was known for its two primary regions: Media and Persia. The two horns symbolize the two kings of Media and Persia who conquered Babylon in 539 BC.

2. Which Way Did the Ram Charge?

According to Bohr, the westward charge of the ram represents the westward expansion of the Medo-Persian Empire under King Cyrus. Cyrus conquered numerous territories in the west, including Asia Minor, Babylon, and Egypt.

3. What is the Meaning of the Goat with One Horn?

Bohr identifies the goat with one horn as representing Alexander the Great, who emerged from the ruins of the Medo-Persian Empire. The single horn symbolizes Alexander's unparalleled military prowess and his swift conquest of a vast empire.

4. How Did the Goat Defeat the Ram?

Bohr explains that the goat's victory over the ram represents Alexander's defeat of Darius III, the last king of Persia, at the Battle of Gaugamela in 331 BC. Alexander's victory led to the end of the Medo-Persian Empire and the establishment of the

Macedonian Empire.

5. What is the Significance of the Little Horn?

Bohr contends that the little horn represents Antiochus IV Epiphanes, a Seleucid king who persecuted the Jews during the second century BC. Antiochus's attempt to Hellenize the Jews led to the Maccabean revolt, which is symbolized by the little horn's attacks on the sanctuary.

In conclusion, Stephen Bohr's notes on Daniel 8 provide a detailed understanding of the chapter's historical and prophetic significance. By analyzing the imagery and symbolism, Bohr reveals the roles played by key figures such as Cyrus the Great, Alexander the Great, and Antiochus IV Epiphanes in the broader context of biblical prophecy.
