What is the summary of Hannibal Lecter and philosophy the heart of the matter? In Hannibal Lecter and Philosophy, 16 philosophers come at Hannibal the way he comes at his victims - from unexpected angles and with plenty of surprises. Several chapters look at the mind of this proud and accomplished killer, psychiatrist, and gourmet cook. Is he a sociopath or a psychopath, or are these the same?

What is the Hannibal Lecter theory? Hannibal Lector is the devil, and Clarissa Starling sells her soul to him in order to stop Buffalo Bill in the form of sharing her secrets. What is Hannibal's IQ? I reckon he scored 117 in high school, but according to some sites they tested his IQ again in prison and then he supposedly scored 145.
