The Renaissance began in Florence, one of the many states of Italy.

**What is the relationship between the Renaissance that originated in Italy and the Protestant Reformation that begins in Germany?** Answer and Explanation: Both the Protestant Reformation and the European Renaissance are similar in that both involved questioning of and changes to the status quo, both involved a period of rising popularity and both generated opposition, conflict, or persecution that led to their end or a falling out of favor.

**What are the main characteristics of Renaissance and Reformation?** The 7 characteristics of the Renaissance are humanism, art, science, navigation, music, self-awareness, and religion. The Renaissance was the period of the 15th and 16th centuries in Europe, marking the transition from the Middle Ages to modernity.

**What were the main points of the Reformation?** The reformers rejected the authority of the pope as well as many of the principles and practices of Catholicism of that time. The essential tenets of the Reformation are that the Bible is the sole authority for all matters of faith and conduct and that salvation is by God's grace and by faith in Jesus Christ.

**What is the simple definition of Reformation?** The act or process of changing a religious, political, or societal institution for the better is called a reformation. However, there were many other causes, as well, including the Crusades. Additionally, Italy's unique geographic location played a major role, as well.

**What movement came after the Renaissance?** Answer and Explanation: The Reformation and Enlightenment came after the Renaissance. Historians typically date the Renaissance as beginning around 1350, and continuing to about 1700. The

Humanist thought arose in the Renaissance and grew throughout these periods.

**Which change occurred during the Renaissance?** Some major developments of the Renaissance include developments in astronomy, humanist philosophy, the printing press, vernacular language in writing, painting and sculpture technique, world exploration and, in the late Renaissance, Shakespeare's works.

**Who led the Reformation of the Renaissance?** Martin Luther, the early leader of the movement, was excommunicated by the Catholic Church, but defiantly pursued his understanding of the Christian faith. As a result of the Reformation new Protestant churches with distinct theological profiles emerged.

**When did the Reformation end?** The end date of the Reformation is even more disputed, with 25 September 1555 (when the Peace of Augsburg was accepted), 23 May 1618, and 24 October 1648 (when the Thirty Years' War began and ended, respectively) being the most commonly mentioned terminuses.

**What happened during the Renaissance and Reformation?** Wealthy leaders in Italian city-states supported talented artists and writers, and Renaissance art and ideas spread from Italy to northern Europe. Martin Luther and other reformers, such

as John Calvin, broke from the Catholic Church and began a new Christian movement that came to be called Protestantism.

**What are two reasons the Renaissance began in Italy?**

**How did the Renaissance change Europe?** The population was becoming wealthier which led to an increase in trade and travel and the spread of new ideas. The rise in prosperity also generated an interest in education, supported the flourishing of the arts and promoted scientific discoveries and new inventions.

**How was the Renaissance different from the Reformation vs Enlightenment?**

Renaissance gave birth to the Protestant Reformation, which questioned the very fundamentals of religion. Enlightenment inspired the French Revolution, which formed the basis of democracy in the modern world. The most notable personalities of the Renaissance period were Leonardo da Vinci, Michelangelo, and Copernicus.

**How might the Reformation and the Renaissance be related?** The Renaissance, by promoting critical thinking and individualism, created an environment conducive to the religious Reformation. The Renaissance, a period of cultural, artistic, political and economic rebirth following the Middle Ages, played a significant role in paving the way for the Reformation.

**What is the simple definition of Reformation?** The act or process of changing a religious, political, or societal institution for the better is called a reformation. When capitalized, the Reformation refers specifically to the Protestant Reformation in Europe, which was a religious change instigated in 1517 by Protestants who wished to reform the Catholic Church.

**Could the Reformation have happened without the Renaissance?** Such changes ultimately paved the way for the establishment of various Protestant sects and reforms within the Catholic Church itself. Without the Renaissance, the Reformation may not have occurred in the same way or with the same intensity.
