

THE ART OF STAR WARS THE FORCE AWAKENS PHIL SZOSTAK

[Download Complete File](#)

What is the orange and white bot's name in Star Wars The Force awakens '? BB-8 was mostly white, with some silver and orange on his body, as well as a black photoreceptor. The droid belonged to Resistance pilot Poe Dameron, whom he accompanied during his flights on his T-70 X-wing starfighter.

What happens at the end of The Force Awakens? Rey awakens, takes the lightsaber, and defeats Kylo in a duel. Snoke orders Hux to evacuate and bring Kylo to him to complete his training. Chewbacca saves Rey and the injured Finn, and they escape aboard the Falcon. As the Resistance forces flee, Starkiller Base implodes and erupts into a star.

Why is BB-8 so cute? The real reason why we love cute things – many of which clearly don't resemble babies – is that their features act as supernormal stimuli. And so it's the super-childish beeps, bumbling behavior and round body that makes you think BB-8 is cute.

Is BB-8 a boy or a girl? Another little girl wonders if BB-8 is a boy or a girl. “I don't know if we ever found out if BB-8 is a boy or a girl,” says Ridley. “Oooh, that's a really good question,” says Keri Russell and asks Oscar Isaac for his assessment. “Definitively a boy.

How did Finn survive Kylo Ren? During the attack, he was defeated and nearly killed by the dark warrior Kylo Ren. Rescued by Rey and Chewbacca, Finn recuperated from his injuries and by the time he awoke, the Resistance was forced to evacuate their base on D'Qar.

Why did Rey bury the lightsabers at the end? Why Did Rey Bury the Lightsabers? Since Luke and Leia, her masters, have become one with the Force, this is her way of honoring them by putting their weapons to rest. It also shows that Rey is burying the past while carrying it with her — both in her spirit and in the lightsaber she now wields.

Is Rey Luke's daughter? Born on the planet Hyperkarn in 15 ABY, Rey was the daughter of Dathan and Miramir. While their names were lost to history, Rey's father was the cloned son—an artificial genetic strandcast—of the resurrected Darth Sidious, making her the granddaughter of the fallen Galactic Emperor and Dark Lord of the Sith.

What is the oldest droid in Star Wars?

Is BB-8 real or CGI? To that end, the droid BB-8 was a physical prop developed by Disney Research, created by Neal Scanlan and operated live on set with the actors.

Who does Han Solo take Rey and BB-8 to see? Han Solo : [BB-8 shows Han, Finn, and Rey the map to Luke Skywalker] This map's not complete. It's just a piece. Ever since Luke disappeared, people have been looking for him. Rey : Why did he leave?

What does C-3PO stand for? They aren't abbreviations — they're model and serial numbers. R2 is a second generation R-series astromech, serial number D2. * And C-3PO is a C-series protocol droid with the serial number 3PO. *And likely several more numbers that get dropped for the sake of time.

Is R2-D2 a girl? Note: Canon sources are mixed as to whether R2-D2 has a gender, but Wallace (an official source) indicates that the droid has masculine programming.

Why did BB-8 stay with Rey? The droid was also taken hostage on Jakku by a scavenger before being rescued by Rey. BB-8 then stood by Rey's side, trusting her for the duration of the trilogy. The fact that the droid was once again with its rescuer after a series of tumultuous events served as a symbolic full-circle moment.
