**What are some problems with divine command theory?** An argument often used against divine command theory is the problem of abhorrent acts. Divine command supports the possibility of God being able to command abhorrent acts if He so chooses, which would mean (for example) that murder, rape, and genocide would be morally acceptable.

**What is the main summary of Invisible Man?** The narrator of *Invisible Man* is a nameless young Black man who moves in a 20th-century United States where reality is surreal and who can survive only through pretense. Because the people he encounters “see only my surroundings, themselves, or figments of their imagination,” he is effectively invisible.

**What is the main theme of Invisible Man?** The main themes of “*Invisible Man*” are identity and race. The Narrator, who is a Black man, feels his invisibility as a person is connected to the way society refuses to see him because he is Black.

**Why was Invisible Man banned?** The novel was banned last week after parent Kimiyutta Parson complained about the language, rape and incest, and even its depiction of one character's “loss of innocence.” Juniors at Randleman High School were allowed to choose Ellison's novel as part of a summer reading assignment, and Parson, the parent of a junior, ...

**Is Invisible Man a hard book to read?** Each experience only serves to strip away a little more of his innocence and his self-worth until he ultimately flees and turns to life underground, off the grid, which is where we find him when the story begins. *Invisible Man* is not an easy read, by any stretch.

**What is the summary of Invisible Man ending?** *Invisible Man* ends with an epilogue in which the narrator decides that his “hibernation” has lasted long enough, and that he will finally leave his underground cellar to rejoin society. Prior to reaching this conclusion, the narrator chronicles Harlem's spiral into a chaotic riot.

The book describes the process of his transformation from blindly worshipping white Americans to seeing the essence of white people, from being physically invisible to being psychologically invisible.
