The Anunnaki of Nibiru: Mankind's Forgotten Creators, Enslavers, Saviors, and Architects of the New World Order

Who are the Anunnaki?

According to ancient Sumerian texts and modern conspiracy theories, the Anunnaki are an extraterrestrial race that originated from the planet Nibiru. They are said to have come to Earth thousands of years ago and played a significant role in the creation of humanity.

What is their relationship with humans?

The Anunnaki are said to have created humans as a workforce to mine the Earth's gold, which they needed to repair their planet's atmosphere. They are also credited with giving humans knowledge and technology, but they are also accused of enslaving humanity and exploiting its resources.

What role did they play in history?

The Anunnaki are believed to have influenced many ancient civilizations, including the Sumerians, Babylonians, and Egyptians. They are said to have established gods and goddesses who ruled over humanity on their behalf. According to some theories, they also played a role in major historical events, such as the Great Flood and the rise of Atlantis.

What is their role in the New World Order?

Modern conspiracy theorists believe that the Anunnaki are still active today and are secretly controlling world events. They are said to be behind the establishment of the New World Order, a global government that will enslave humanity. Others believe that they will return to Earth and establish a new golden age for mankind.

Is there any evidence to support these claims?

There is no definitive scientific evidence to support the existence of the Anunnaki or Nibiru. However, ancient texts and myths from around the world point to the possibility of an extraterrestrial influence on human history. The truth about the Anunnaki remains a subject of debate and speculation.
