Unit 1 Macroeconomics: Lesson 2 Activity 3

Question 1: What are the three main macroeconomic goals?

Answer:

- Economic growth

- Price stability (low inflation)
- Low unemployment

Question 2: How does the government use fiscal policy to achieve these goals?

Answer:

Fiscal policy involves government spending and taxation. By increasing spending or reducing taxes, the government can stimulate economic growth. By decreasing spending or increasing taxes, it can reduce inflation and unemployment.

Question 3: What are the different types of monetary policy instruments?

Answer:

- Open market operations (buying or selling government bonds)
- Reserve requirements (the amount of money banks must hold in reserve)
- Discount rate (the interest rate banks pay to borrow from the central bank)

Question 4: How does the central bank use these instruments to influence the economy?

Answer:

By buying or selling bonds, the central bank can increase or decrease the money supply. Changing reserve requirements can also affect the money supply. And by adjusting the discount rate, the central bank can influence interest rates and borrowing costs.

Question 5: What are the challenges facing economic policymakers in achieving macroeconomic goals?

Answer:

- Unforeseen economic shocks (e.g., natural disasters, pandemics)
- Political constraints (e.g., budget deficits, public opinion)
- Time lags between policy implementation and economic effects
- Trade-offs between different goals (e.g., growth and inflation)
