

Assertive discipline for secondary school educators no 1031

[Download Complete File](#)

What is assertive discipline in education? Assertive discipline is an obedience-based discipline approach to classroom management developed by Lee and Marlene Canter. It involves a high level of teacher control in the class. It is also called the "take-control" approach to teaching, as the teacher controls their classroom in a firm but positive manner.

What is the center model of assertive discipline? The Canter Model of Assertive Discipline is a systematic approach for teachers to manage an organized classroom where the teacher is in charge. It involves the teacher clearly communicating expectations to students and backing up words with actions.

What is the magic of assertive discipline? Teachers using the assertive discipline approach remain calm and in control when facing disobedience. They issue praise and positive feedback for desired behavior, call students out when rules are broken, administer punishment, and explain the differences between behaviors that are acceptable and unacceptable.

Who came up with assertive discipline? Assertive Discipline, developed by Lee and Marion Canter in the mid 1970's, is just one of many discipline packages available for implementation. has been approved as meeting the research paper requirement for the Degree of Master of Arts in Education.

What is an example of Assertive Discipline model?

What is most important Assertive Discipline? The key to Assertive Discipline is catching students being good: recognizing and supporting them when they behave

appropriately and letting them know you like it, day in and day out. with misbehavior.

What is the difference between restorative discipline and Assertive Discipline?

Assertive discipline has predetermined and consistent consequences. In contrast, Restorative discipline has consequences more directly related to "harm" or the behavior to help repair the relationship affected.

What are the benefits for the teacher who uses Assertive Discipline? Such teachers help students understand which behaviors promote success and which lead to failure. Assertive teachers are not harsh taskmasters. They recognize students' needs for consistent limits on behavior but at the same time are ever mindful of students' needs for warmth and encouragement.

What is the assertive teacher model by Bill Rogers? Be an Assertive teacher: This teacher expects compliance but refuses to rely on power or role status to gain respect. The teacher plans for discipline, uses clear, firm direction and correction, but acts respectfully, keeping the aims of discipline clearly in mind.

What is an example of power Assertive Discipline? In contrast, power assertive techniques focus on punishments such as spanking, threats, and removal of privileges, as well as displays of anger, shaming, and humiliating (Grusec & Goodnow, 1994).

What are the three assertive techniques? There are a number of assertiveness techniques. These include basic assertion, empathic assertion, consequence assertion, discrepancy assertion, the broken record technique, and negative feeling assertion. It is important to remember your non-verbal communication when using these techniques.

What are the characteristics of an assertive teacher?

What is Assertive Discipline theory in education? Summary. Assertive discipline is a systematic approach to behavior management that requires that teachers set the rules, maintain a balance between positive and negative consequences, and be assertive in their verbal communication to make their wants and needs known to the students, parents, and principals.

How does Assertive Discipline align with behaviorism? A behaviorist approach to class control based on the assumptions that teachers have a right to teach and a right to expect students to behave. Breaks teacher behavior into three general response styles.

What is Canter's mode of Assertive Discipline? Canter's theory of assertive discipline is mentioned in the paper as an approach to behavior modification that involves identifying maladaptive behavior, rewarding appropriate behavior, and using extinction procedures to eliminate maladaptive behavior.

What are the 6 main points of Kounin's theory? Kounin's key ideas include the "ripple effect," "withitness," "overlapping," effective transitions, class management, and satiation. Ripple Effect. The "ripple effect" occurs when the teacher corrects a misbehavior in one student, and this positively influences the behavior of other nearby students.

What are the three types of discipline? The Three Types: Preventive Discipline -- measures taken to preempt misbehavior by keeping students engaged. Supportive Discipline -- measures taken to assist students with self-control by helping them get back on task. Corrective Discipline -- measures taken when students are not following classroom or school rules.

In which situation does the teacher use an assertive discipline approach? In which situation does the teacher use an assertive discipline approach to address student behavior? The teacher and student agree to disagree about the appropriateness or inappropriateness of the behavior. The teacher asserts her authority to ensure that the student knows who is in charge in the classroom.

What is an example of Assertive Discipline in the classroom? Communicate your displeasure with a student's misbehavior, but then be sure to tell the student what s/he should be doing. For example, consider: "Bill, please put the pencil down on the desk and pass your paper forward." Notice that the teacher told the student what to do.

What are the 3 importance of assertiveness? Behaving assertively can help you: Gain self-confidence and self-esteem. Gain a sense of empowerment. Understand

and recognize your feelings.

What are the three assertive Behaviour? An assertive person is emotionally honest, direct, self-enhancing, and expressive. He/she feels confident, self-respecting at the time of his/her actions as well as later.

What does assertive mean in education? Assertiveness can be defined as communication in which one expresses oneself in a direct and honest manner in interpersonal situations, while simultaneously respecting the rights and dignity of others.

What is the difference between restorative discipline and Assertive Discipline? Assertive discipline has predetermined and consistent consequences. In contrast, Restorative discipline has consequences more directly related to "harm" or the behavior to help repair the relationship affected.

What is proactive discipline and Assertive Discipline? Proactive Discipline is better than Reactive Discipline. Reactive discipline involves waiting until a student has misbehaved before coming up with a disciplinary response. Assertive discipline prioritizes proactive strategies such as setting up classroom rules and praising positive behavior.

What is assertive style in teaching? Clear and direct communication: Teachers using an assertive style communicate their expectations, instructions, and feedback in a clear and straightforward manner. This clarity helps students understand what is expected of them and reduces confusion or misinterpretation.

What are the three means toward assertive discipline? Summary. Assertive discipline is a systematic approach to behavior management that requires that teachers set the rules, maintain a balance between positive and negative consequences, and be assertive in their verbal communication to make their wants and needs known to the students, parents, and principals.

Who is an assertive teacher? Assertive teachers create a presence in the classroom, and use a range of tools and strategies to manage behaviour in a non-confrontational manner. All in all, an assertive school is a dynamic, positive environment with members understanding their personal rights and the

responsibilities (Daniel Goleman).

How do you teach assertiveness in class?

What are the benefits of assertive discipline in the classroom? The assertive response style provides several benefits that the other styles do not. Assertive teachers create a classroom atmosphere that allows both teacher and students to meet their needs. They invite student collaboration and help students practice acceptable behavior.

What are the three main types of discipline? The Three Types: Preventive Discipline -- measures taken to preempt misbehavior by keeping students engaged. Supportive Discipline -- measures taken to assist students with self-control by helping them get back on task. Corrective Discipline -- measures taken when students are not following classroom or school rules.

What is Canter's mode of assertive discipline? Canter's theory of assertive discipline is mentioned in the paper as an approach to behavior modification that involves identifying maladaptive behavior, rewarding appropriate behavior, and using extinction procedures to eliminate maladaptive behavior.

What is an example of Assertive Discipline? Communicate your displeasure with a student's misbehavior, but then be sure to tell the student what s/he should be doing. For example, consider: "Bill, please put the pencil down on the desk and pass your paper forward." Notice that the teacher told the student what to do.

What are the components of the Assertive Discipline model? The four main components of the Assertive Discipline model are: a set of consistent, firm, and fair rules; a predetermined set of positive consequences for adhering to the rules; a prearranged set of negative consequences to be applied when rules are not followed; and.

What is an example of power Assertive Discipline? In contrast, power assertive techniques focus on punishments such as spanking, threats, and removal of privileges, as well as displays of anger, shaming, and humiliating (Grusec & Goodnow, 1994).

What are the 4 C's of assertive communication? Some people believe assertiveness is mean or sounds aggressive. But it's not, it's being courteous, calm, clear and concise. One key to effective communication is congruence, meaning you're authentic, meaning honesty and congruence.

What are the three assertive techniques? There are a number of assertiveness techniques. These include basic assertion, empathic assertion, consequence assertion, discrepancy assertion, the broken record technique, and negative feeling assertion. It is important to remember your non-verbal communication when using these techniques.

In which situation does the teacher use an assertive discipline approach? In which situation does the teacher use an assertive discipline approach to address student behavior? The teacher and student agree to disagree about the appropriateness or inappropriateness of the behavior. The teacher asserts her authority to ensure that the student knows who is in charge in the classroom.
