What happened in the Odyssey Chapter 10? The final destination of book 10 is the island of Circe. Odysseus sends some of his men to investigate, and when they discover Circe, she turns them into pigs. Odysseus then meets the god Hermes, who informs him of what happened. He gives Odysseus the magical herb, moly, which will make him impervious to Circe's magic.

Why did they stop American Odyssey? British actress Anna Friel led the cast. But “American Odyssey” opened with unimpressive ratings — just 5.4 million for the premiere, according to Nielsen — and quickly fell off from there. Critics generally found the show derivative of other spy series and sometimes hard to follow.

How does Odysseus demonstrate his leadership in book 10? Odysseus shows great leadership when he comes up with a number of ideas to help him and his men escape from being eaten by the monster. He convinces the cyclops to drink so much wine that he becomes drunk. Once Polyphemus is intoxicated, the crew blinds him with a spear.

What is hubris in the Odyssey Book 10? Odysseus reveals another flaw in Book 10 that compounds his hubris—poor judgment. He and his men are so close to home, and yet Odysseus neglects to guard closely the pouch of winds or even to stay awake. These mistakes cost him and his men dearly.

Is there a season 2 of American Odyssey? There won't be a second season of American Odyssey. To little surprise, NBC has cancelled the dramatic TV series after 13 episodes.

What did the cicones do to Odysseus? With apparent ease, they sack the city, kill the men, enslave the women, and enjoy a rich haul of plunder. Odysseus advises his men to leave immediately with their riches, but they ignore his warnings. The Cicones gather reinforcements, counterattack, and eventually rout the Greeks. Odysseus and his men retreat by sea.
