## [Download Complete File](#)

**What did Brecht say about theatre?** Brecht was against cathartic theatre. He believed that while the audience believed in the action onstage and became emotionally involved they lost the ability to think and to judge.

**How did Brecht's theories impact his specific theatre conventions and practices?** Brecht changed the rules of theatre, disrupting the sense of reality by distancing the actors and audiences from the events being portrayed, making things that should be familiar strange in order to make the audience think rather than simply accept, and using contradictions to create complex characters.

**Where did Brecht grow up and how did he get into theatre?** The playwright Bertolt Brecht was born in 1898 in the German town of Augsburg. After serving as a medical orderly in the First World War and appalled by the effects of the war, he went first to Munich and then to Berlin in pursuit of a career in the theatre.

**What is the V effect of Brecht?** This device was used by Brecht more frequently in rehearsal than performance. It helps distance the actor from the character they're playing. It also reminds the audience that they're watching a play and forces them to study the actions of a character in objective detail.

**How did Brecht want his audience to react to theatre and why?** He wanted his theatre to spark an interest in his audiences' perception of the world. He did not want his audiences to sit passively and get lost in a show's story, but to make them think and question the world they live in. He encouraged them to be critical of society.

**What was Brecht's main aim as a Theatre director?** Brecht took to the theater because he saw it as a form of imitation. His theater is about reproduction, but it is a critical type of reproduction. His goal wasn't to make original stories, but to show things that are familiar and reveal the social forces behind them.

**How is Brecht's theatre different to naturalistic theatre?** Brecht wanted his audience to take something away and have learned something from the play – not just feel emotions. Epic Theatre is a theatrical style opposed to naturalistic theatre. Epic theatre often has a fractured narrative that is non-linear and jumps about in time.

**What are the key principles and techniques of Bertolt Brecht's epic theatre?**

**Why is Brecht's epic theatre modern?** His epic theatre was in fact a revolt against the main stream modern theatre in which Brecht openly declares that theatre should be 'political. ' Brecht's theatre was so influential that his theatre becomes reference to the postmodern theatre. Bertolt Brecht was a modern man.

**What cultural and artistic influences had an impact on Brecht?** Brecht's ideas for theatre can still seem revolutionary for young people who are more exposed to film and TV than theatre. Brecht's ideas were heavily influenced by Ancient Greek theatre, Shakespearean theatre and Georg Büchner's Woyzeck.

**What inspired Brecht?** Brecht wrote hundreds of poems throughout his life. He began writing poetry as a young boy, and his first poems were published in 1914. His poetry was influenced by folk-ballads, French chansons, and the poetry of Rimbaud and Villon.

**Why did Brecht use song and dance?** Song and dance This is a good way to ensure that the audience sees the theatre and are reminded of the fact they are watching a play.

**What is an archetype in Brecht?** For this reason Brecht will often refer to his characters by archetypal names, such as 'The Soldier' or 'The Girl'. The interpretation will be built on the character's social role and why they need to behave as they do, rather than looking inwardly at emotional motivation.

**How did Marxist theory influence Brecht?** Marx and Lenin were instrumental to Brecht's thought. The dialectical materialism of both served as the basis for Brecht's understanding of the social world and history. Moreover, Brecht believed that dialectical materialism could serve as the basis for a scientifically founded cultural critique.

**What are Brechtian conventions?** Brecht's approach to theatre suits work which has a political, social or moral message. Perhaps you want the audience to consider the meaning in a parable (a story with a wider moral message). You might want to explore a theme or issue and make your audience consider varying viewpoints or sides to an argument.
