When did Harley stop making the Softail?

What engine is in a Softail? MILWAUKEE-EIGHT® 107 ENGINE A powerful, smooth-running V-Twin engine with crisp throttle response and that famously fantastic Harley-Davidson sound.

How do you tell if a Harley is a Softail? A softail (shortened form of soft tail) motorcycle intentionally looks like vintage motorcycles with a rigid hard-tail frame that has a triangle of steel tubes at the rear axle, as on a bicycle frame, but on a Softail these tubes are actually a triangular swingarm, with the shock absorber(s) hidden, as opposed to ...

Where is Harley Softail Standard made? Harley-Davidson's main production facility is located in York, Pennsylvania. This massive factory produces the Sportster, Softail, Touring, and CVO families of motorcycles, as well as the LiveWire electric motorcycle.

Why is it called Softail? Why do they call it a Softail Harley? Softail Harley-Davidson motorcycles are so named because of their rear suspension design. Unlike traditional hardtail frames, which feature a rigid frame with no suspension, Softails have an adjustable shock absorber mounted between the frame and the swingarm.

Why buy a Softail? No electronic gimmickry or doodads, just an elemental yet modern, easy-to-ride, nicely balanced motorcycle that just happens to tap into a simpler time. It also happens to be the most affordable, lightest, and best-handling of Harley's Big Twins.

Is a Harley Softail a Sportster? Softails are generally considered more suitable for longer rides due to their superior comfort and stability, thanks to the rear suspension system. In contrast, Sportsters are celebrated for their ease of maneuverability and lighter weight, making them a joy to ride in city traffic or on winding country roads.

How many Softail models are there? Harley-Davidson has a massive collection of models with the Softail frame: Softail Standard, Custom, Springer Softail, Heritage Softail, Heritage Springer, Night Train, Deluxe, Deuce, Fat Boy, Softail Slim, the Dark Custom Cross Bones, the Dark Custom Blackline, and Breakout.

Is Softail a Dyna? Dyna Models: A Comparison of Features and Riding Experience. Harley-Davidson's Softail and Dyna models were two distinct lines of motorcycles. The Softail models featured a hidden rear suspension, providing a traditional "hardtail" appearance while offering a smoother ride.

What is the top speed of the Softail?

Is a Softail a Fatboy? The Harley-Davidson Fat Boy, is a V-twin softail cruiser motorcycle with solid-cast disc wheels.

Is a Softail a women's bike? The Harley-Davidson Softail Deluxe is a popular girl's bike for several reasons.

Are Harley parts made in Japan? However, the parts are manufactured elsewhere. Harley Davidson manufactures parts in factories located in Taiwan, Japan, Italy, Germany, and Mexico. The number of American-made parts varies from model to model, but for the US market it means they are still 'Made in America. '

What Harley is made in China? The X 500 is the second model to be produced under the partnership between Harley-Davidson and Qianjiang, following the X 350. In its Q1 2023 report, Harley-Davidson reiterated that they were intended mainly for the Chinese market, with a X350RA variant to be used by Harley-Davidson's Riding Academy.

Are Harleys made in Thailand? Regarding manufacturing, Harley-Davidson's history primarily involved production in the United States until recent years. Despite four U.S.-based factories operational until 2019, rising global demands and steel-

import costs led to a plant closure in Kansas and the establishment of a new one in Thailand.

Why did Harley stop the Dyna? To be up-to-date and to attract not only its existing but also a broader target group, Harley-Davidson understood the importance of innovations. Terminating the Dyna series was one of the multiple steps to bring freshness into the available Harley product range.

What models did Harley discontinue?

Did Harley stop making the 883? Harley-Davidson manufactured the last Evolution Sportster, a Gunship Gray 883, on November 18, 2022.

Is Harley Softail a good first bike? All three have a starting MSRP under 10k, and all get 48 mpg or better. Softail Standard – If in your dreams of riding you pictured yourself on a classic cruiser, this could be the bike for you. Softail is so well balanced it's easy to handle. It's powerful enough it could be your first and your last bike.

The Geopolitics of Emotion: Reshaping the World

In his seminal work, "The Geopolitics of Emotion," Dominique Moisi argues that emotions are profound forces that shape international relations. Cultures of fear, humiliation, and hope are reshaping global politics, leading to new challenges and opportunities.

Fear: A Driving Force of Polarization

Q: How does fear influence the geopolitical landscape?

A: Moisi asserts that fear of the other fuels polarization and nationalistic tendencies. When societies perceive threats to their security or identity, they may retreat into inward-looking policies that alienate outsiders. This fear-driven isolationism hinders cooperation and exacerbates international conflicts.

Humiliation: A Catalyst for Anger and Resentment

Q: What role does humiliation play in shaping global dynamics?

A: Humiliation, a profound sense of shame and disgrace, can lead to resentment and a desire for revenge. Moisi argues that countries that have experienced humiliation in the past (e.g., Germany after World War II) may adopt aggressive foreign policies to regain their dignity. This humiliation-driven aggression can destabilize international order.

Hope: A Source of Resilience and Progress

Q: How does hope contribute to global politics?

A: In contrast to fear and humiliation, hope generates a positive outlook and belief in the future. Societies that embrace hope are more likely to cooperate with others, invest in education, and foster a sense of optimism. Hope can act as a catalyst for social and economic progress, transforming societies and their relationships with the world.

Clash of Emotions: The Making of a New Global Order

Q: How do these different emotions interact in the global arena?

A: Moisi posits that fear, humiliation, and hope are in constant tension. Some countries may experience multiple emotions simultaneously, leading to complex and contradictory policies. The clash between these emotions shapes the global order, giving rise to new geopolitical alliances and rivalries.

The Future of Global Emotions

Q: What are the implications for the future of international relations?

A: Moisi concludes that understanding the geopolitics of emotion is crucial for navigating the complexities of an interconnected world. By acknowledging and managing these emotions, nations can mitigate polarization, resolve conflicts, and foster hope for a more cooperative and peaceful future. The geopolitics of emotion will continue to be a significant force in shaping the global landscape for years to come.

Is Piaggio and Vespa the same? Vespa (Italian pronunciation: [ˈvɛspa]) is an Italian brand of scooters and mopeds manufactured by Piaggio. The name means

wasp in Italian. The Vespa has evolved from a single model motor scooter manufactured in 1946 by Piaggio & Co.

Which country made Piaggio Vespa? Piaggio Group (Piaggio Group [ˈpjaddʒo]) is an Italian motor vehicle manufacturer, which produces a range of two-wheeled motor vehicles and compact commercial vehicles under four brands: Piaggio, Vespa, Aprilia, Moto Guzzi and Derbi. Its corporate headquarters are located in Pontedera, Italy.

Why is the Piaggio Vespa expensive? This reputation, along with their stylish and timeless designs, contributes to the premium price tag. Additionally, Vespa scooters are made with meticulous craftsmanship and top-of-the-line materials, ensuring durability and longevity.

Can a Vespa go on the highway? Scooters equal to or above 150cc are freeway, interstate and highway legal. As a suggestion, to ride on an expressway type road, such as in interstate, you'll probably want to be on at least a 300cc scooter. Only you can decide if you are comfortable at those speeds, no matter what your scooter is capable of.

Why is the Vespa discontinued? Industry observers said that the declining appeal of Vespa scooters in recent years can be attributed to various factors, including their premium pricing, limited market presence, and the growing preference for electric scooters amidst rising fuel costs.

Which Vespa model is best? Q: Which scooter is better Vespa SXL 125 or Vespa VXL 125? According to our average user rating, Vespa SXL 125 has a score of 4.0/5 while Vespa VXL 125 is rated 3.5/5. Q: Which scooter among Vespa SXL 125 and Vespa VXL 125 is cheaper? Vespa VXL 125 is the cheapest among these scooters.

Are Vespas made in China? Piaggio & C owns the Piaggio Foshan Motorcycle Co. Ltd plant in Foshan City China, which plays a part in their production operations, but the majority of their production for scooters still takes place at their Pontedera, Italy headquarters.

Is a Piaggio Fly a Vespa? Bottom line, the Fly 150 IS a Vespa LX 150.

Who owns Piaggio today? Listed on the Italian stock exchange since 2006, it has been controlled by Immsi S.p.A., an industrial holding listed in Italy, since 2003. In December 2004 Piaggio entered the motorbike business with the purchase of the Aprilia and Moto Guzzi motorbike brands.

What brands are under Piaggio? Piaggio's vehicle range includes scooters, mopeds and motorcycles starting from 50 to 1,200cc under the Piaggio, Vespa, Gilera, Aprilia, Moto Guzzi, Derbi and Scarabeo brands.

Why is the Vespa discontinued? Industry observers said that the declining appeal of Vespa scooters in recent years can be attributed to various factors, including their premium pricing, limited market presence, and the growing preference for electric scooters amidst rising fuel costs.
