### XTREME PAPERS IGCSE Physics 2001: Questions and Answers

#### Question 1:

A ball is thrown vertically upwards with a velocity of 10 m/s. What is its height after 2 seconds?

#### Answer:

Using the equation of motion for constant acceleration:

$$v = u + at$$

where:

- v is the final velocity (0 m/s)
- u is the initial velocity (10 m/s)
- a is the acceleration due to gravity (-9.8 m/s<sup>2</sup>)
- t is the time (2 s)

solving for s (height)

$$s = ut + (1/2)gt^2$$

$$s = (10 \text{ m/s}) * (2 \text{ s}) + (1/2) * (-9.8 \text{ m/s}^2) * (2 \text{ s})^2$$

$$s = 20 \text{ m} - 19.6 \text{ m}$$

$$s = 0.4 \text{ m}$$

#### Question 2:

A car travels a distance of 100 km in 2 hours. What is its average speed?

**Answer:**

Average speed is given by:

$$\text{Average speed} = \text{Distance traveled} / \text{Time taken}$$

$$\text{Average speed} = 100 \text{ km} / 2 \text{ h}$$

$$\text{Average speed} = 50 \text{ km/h}$$

**Question 3:**

A mass of 2 kg is attached to a spring with spring constant  $k = 100 \text{ N/m}$ . What is the period of oscillation?

**Answer:**

The period of oscillation is given by:

$$T = 2\pi\sqrt{m/k}$$

$$T = 2\pi\sqrt{2 \text{ kg} / 100 \text{ N/m}}$$

$$T = 2\pi * 0.141 \text{ s}$$

$$T = 0.89 \text{ s}$$

**Question 4:**

A transformer has a primary coil with 100 turns and a secondary coil with 200 turns. If the voltage in the primary coil is 12 V, what is the voltage in the secondary coil?

**Answer:**

The voltage ratio is equal to the turns ratio:

$$V_s / V_p = N_s / N_p$$

where:

- $V_s$  is the voltage in the secondary coil
- $V_p$  is the voltage in the primary coil
- $N_s$  is the number of turns in the secondary coil
- $N_p$  is the number of turns in the primary coil

$$\begin{aligned}V_s / 12 \text{ V} &= 200 / 100 \\V_s &= 24 \text{ V}\end{aligned}$$

**Question 5:**

A ray of light travels from air to water. What is the refractive index of water?

**Answer:**

The refractive index is given by:

$$n = c / v$$

where:

- $n$  is the refractive index
- $c$  is the speed of light in vacuum
- $v$  is the speed of light in the medium

The refractive index of water is approximately 1.33.

**The Solution to Social Anxiety: Break Free from the Shyness That Holds You Back**

Social anxiety, a common ailment that affects countless individuals, can be a debilitating force, preventing people from living fulfilling and vibrant lives. However, there is hope. Through a combination of therapy, medication, and lifestyle changes, it is possible to overcome social anxiety and unlock the potential that has been stifled by this condition.

**What is Social Anxiety Disorder (SAD)?**

SAD is a persistent fear of being judged or embarrassed in social situations. Individuals with SAD may experience excessive blushing, sweating, or heart palpitations when engaging with others. They may avoid social gatherings, fear public speaking, and struggle with everyday interactions.

**What Causes Social Anxiety?**

The exact cause of SAD is not fully understood, but research suggests that a combination of genetic, environmental, and psychological factors plays a role. Negative experiences, such as bullying or rejection, can trigger social anxiety, as can certain personality traits, like introversion.

### **How to Overcome Social Anxiety**

Overcoming social anxiety requires a multifaceted approach. Therapy, such as cognitive behavioral therapy (CBT), can help individuals identify and challenge negative thoughts and behaviors that contribute to their anxiety. Medication, like selective serotonin reuptake inhibitors (SSRIs), can also be helpful in reducing symptoms.

### **Lifestyle Changes**

In addition to therapy and medication, lifestyle changes can play a significant role in managing social anxiety. Regular exercise, a healthy diet, and sufficient sleep can all help improve overall well-being and reduce stress levels. Gradually exposing oneself to anxiety-provoking situations in a safe and supportive environment can also be beneficial.

### **Breaking Free**

Breaking free from social anxiety is not an easy journey, but it is possible. With the right support and a commitment to change, individuals can overcome the shyness that holds them back and embrace the enriching experiences that life has to offer. Remember, you are not alone, and there is hope for a brighter future.

### **Undercover Sex Signals a Pickup for Guys**

**Question:** How can I tell if a woman is interested in me without being too obvious?

**Answer:** Pay attention to her nonverbal cues. If she makes eye contact, smiles, and touches you, she may be interested. However, be careful not to misinterpret her signals. If she is simply being friendly, you may not want to make a move.

**Question:** What are some specific nonverbal cues that women use to signal interest?

---

**Answer:** Here are a few common nonverbal cues that women use to signal interest:

- Eye contact
- Smiling
- Touching
- Leaning in
- Playing with her hair or jewelry
- Crossing her legs towards you
- Mirroring your body language

**Question:** How can I respond to these signals without being creepy?

**Answer:** If you think a woman is interested in you, the best way to respond is to be friendly and respectful. Make eye contact, smile, and touch her lightly on the arm or shoulder. If she responds positively, you can continue the conversation. However, if she seems uncomfortable, back off and give her some space.

**Question:** What should I do if I'm not sure if a woman is interested in me?

**Answer:** If you're not sure if a woman is interested in you, it's best to err on the side of caution. Don't make a move that could make her uncomfortable. Instead, try to gauge her interest by paying attention to her body language and conversation. If you're still not sure, you can ask her directly if she's interested.

**Question:** What are some tips for picking up women in a bar or club?

**Answer:** Here are a few tips for picking up women in a bar or club:

- Dress well and groom yourself.
- Make eye contact and smile.
- Be approachable and friendly.
- Don't be afraid to start a conversation.
- Be respectful of her space.
- If she's not interested, don't be pushy.

## **Sumitomo Cranes: Embracing Innovation in Lifting Solutions**

### **What is Sumitomo Crane?**

Sumitomo Heavy Industries Construction Cranes Co., Ltd. (SHI-CC) is a renowned manufacturer of cranes based in Japan. Established in 1969, SHI-CC has become a global leader in the crane industry, producing a wide range of models for various applications.

### **What types of cranes does Sumitomo offer?**

Sumitomo Crane manufactures an extensive lineup of cranes, including:

- Crawler cranes
- Mobile cranes
- Tower cranes
- Offshore cranes
- Special cranes

Each type is designed to meet specific lifting requirements in the construction, infrastructure, and industrial sectors.

### **What are the key features and benefits of Sumitomo cranes?**

Sumitomo cranes are known for their exceptional quality, reliability, and innovation. Some of their key features include:

- **Advanced hydraulic systems** for precise and efficient lifting operations
- **Robust structures** to withstand harsh operating conditions
- **Advanced safety features** to protect operators and bystanders
- **Easy maintenance** for reduced downtime and operating costs

### **Where are Sumitomo cranes used?**

Sumitomo cranes are utilized in a wide range of applications worldwide, including:

- Construction projects (building construction, bridge construction, etc.)

- Infrastructure development (road construction, utility construction, etc.)
- Industrial operations (heavy equipment handling, shipyards, etc.)
- Energy projects (wind turbine installation, oil and gas exploration, etc.)

### **What makes Sumitomo cranes stand out in the industry?**

SHI-CC's commitment to innovation and customer satisfaction has set Sumitomo cranes apart. The company continuously invests in research and development to enhance product performance and introduce cutting-edge technologies. Sumitomo's dedication to providing top-notch customer support ensures that users receive comprehensive assistance throughout the lifecycle of their crane.
