#### **The Healthy Mind Interviews Vol. 2: Interview with Khenpo Tsering Gyaltsso**

In the second volume of "The Healthy Mind Interviews," Khenpo Tsering Gyaltsso, a renowned Tibetan Buddhist scholar and teacher, shares his insights on cultivating a healthy mind and living a meaningful life. Here are excerpts from the interview:

##### **1. What is the key to a healthy mind?**

"The key to a healthy mind is to recognize the nature of our mind and to cultivate its positive qualities. Our mind has the potential for both clarity and confusion, for wisdom and ignorance. By recognizing this duality, we can develop practices to nurture our positive qualities and minimize our negative ones."

##### **2. How can we overcome negative emotions?**

"Negative emotions are natural, but they can become destructive if we let them control us. When we experience negative emotions, we should first acknowledge them without judgment. Then, we can use techniques such as mindfulness or compassion meditation to transform these emotions into something positive."

### **3. What role does compassion play in our lives?**

"Compassion is the ability to empathize with the suffering of others and to desire their well-being. When we cultivate compassion, we not only benefit others but also ourselves. Compassion brings us a sense of inner peace and joy and helps us connect with our fellow human beings."

### **4. How can we live a meaningful life?**

"A meaningful life is one that is aligned with our values and purpose. To discover our purpose, we need to reflect on our unique qualities and aspirations. Once we have identified our purpose, we can set goals and take actions that will bring us closer to achieving it."

### **5. What advice would you give to someone seeking to improve their mental health?**

"Cultivate a regular meditation practice. Meditation helps calm the mind, reduce stress, and improve focus. Engage in activities that bring you joy and fulfillment. Connect with supportive people who inspire and encourage you. Seek professional help if you are struggling with mental health issues."
