Suzuki RM125: A Detailed Exploration**

Why Did Suzuki Stop Making the RM125?

Suzuki's decision to discontinue the RM125 was driven by evolving market trends and a need to focus on other segments. The rise of four-stroke bikes and the increasing popularity of larger displacement models played a role in the decline of 125cc motocross bikes.

How Many Gears Does a RM125 Have?

The RM125 features a six-speed transmission, allowing for a wide range of gear ratios to suit various riding conditions.

Is a Suzuki RM 125 a 2 Stroke?

Yes, the Suzuki RM125 is a two-stroke motocross bike. Two-stroke engines are characterized by a lightweight and compact design, providing excellent power-to-weight ratios.

How Much Horsepower Does a RM125 Have?

The RM125 produces approximately 35-40 horsepower, making it a potent and responsive machine.

How Fast Is a RM125?

The top speed of a RM125 varies depending on factors such as gear ratio, rider weight, and track conditions. However, it can reach speeds of up to 70 mph.

Does Suzuki Still Make RM?

Suzuki discontinued the RM lineup in 2020. The company has since focused on developing other motorcycle segments, including street bikes and scooters.

Is the 2001 RM125 a Good Bike?

The 2001 RM125 is considered a solid performer among enthusiasts. It boasts a reliable and powerful two-stroke engine, along with a well-balanced chassis.

How Much Does a 2001 RM125 Weigh?

The 2001 RM125 weighs approximately 210 pounds without fuel.

Is the 2004 RM125 a Good Bike?

The 2004 RM125 underwent significant upgrades, including a new frame, suspension components, and engine modifications. It is widely regarded as one of the best RM125 models ever produced.

How Fast Does a 125cc 2-Stroke Go?

125cc two-stroke motocross bikes can reach speeds of up to 70 mph and beyond, depending on the specific model and riding conditions.

What Is the Full Speed of Suzuki 125?

The full speed of a Suzuki 125 depends on the model. The RM125 can reach up to 70 mph, while the DR125 road-going model has a top speed of approximately 65 mph.

What Does the YZ Stand For?

The YZ designation for Yamaha motocross bikes stands for "Yamaha Zipper," referencing the sound made by the early two-stroke Yamaha race bikes.

Which Is Faster: 250 4-Stroke or 125 2-Stroke?

A 250cc four-stroke motocross bike is generally faster than a 125cc two-stroke, particularly in terms of top speed and low-end torque.

How Big Is the Gas Tank on a RM125?

The fuel tank capacity of a RM125 is approximately 2.5 gallons.

Why Did Suzuki Stop Making 2 Strokes?

Suzuki's decision to stop producing two-stroke motocross bikes was driven by environmental regulations and the increasing popularity of four-stroke models.

How Fast Should a 125 Go?

The recommended speed for a 125cc motocross bike for novice and intermediate riders is between 40-60 mph. Experienced riders may push the bike to higher speeds.

What Is the Fastest 125?

The fastest 125cc motocross bike ever produced is widely considered to be the KTM 125 SX.

Is a 125 Fast Enough?

Whether a 125cc motocross bike is fast enough depends on the rider's skill level and the intended purpose. For beginners and intermediate riders, a 125 can be a suitable choice.

Why Did Suzuki Stop Racing?

Suzuki withdrew from factory-supported road racing in 2022 due to economic challenges and a strategic decision to focus on other areas of business.

Are Suzuki Made in Thailand?

Yes, Suzuki manufactures some of its motorcycles, including select models in the RM lineup, in Thailand.

Why Is Suzuki Not in Motocross?

Suzuki currently does not participate in factory-supported motocross racing. The company has withdrawn from the sport due to factors such as declining sales and

changes in market strategy.

Why Did Suzuki Drop Out of MotoGP?

Suzuki withdrew from MotoGP in 2022 due to financial constraints and a desire to allocate resources to other areas of the business.

Have Suzuki Stopped Making the GSXR?

Yes, Suzuki has discontinued the GSXR lineup for the 2023 model year.

Will Suzuki Make a New Dirt Bike?

There is no official confirmation from Suzuki regarding the production of a new dirt bike. The company has recently focused on developing electric motorcycles and other alternative powertrains.

Why Did Suzuki Leave Us?

Suzuki's decision to withdraw from certain racing activities and discontinue some models was driven by a combination of economic challenges, changing market trends, and a strategic shift in the company's business direction.
