**How long did the Romanov dynasty rule for?** The Romanov dynasty ruled Russia for three centuries, from 1613 until the Russian Revolution in 1917. Descended from Ivan the Terrible, Mikhail Fedorovich became the first Romanov Czar, reigning from 1613-1645.

**What country was ruled by the Romanov dynasty?** The Romanovs ruled Russia for over three centuries until Nicholas II abdicated in 1917. The Great Russian Empire had its fair share of strong leaders, such as Peter the Great and his daughter, Elizabeth of Russia, as well as weak leaders, such as Ivan the Terrible.

**What was the Romanov dynasty known for?** The House of Romanov (also transliterated as Romanoff; Russian: ?????????, romanized: Romanovy, IPA: [r??man?v?]) was the reigning imperial house of Russia from 1613 to 1917. They achieved prominence after Anastasia Romanovna married Ivan the Terrible, the first crowned tsar of all Russia.

**What ended the Romanov dynasty?** During the Russian Revolution of 1917, Bolshevik revolutionaries toppled the monarchy, ending the Romanov dynasty. Czar Nicholas II and his entire family—including his young children—were later executed

by Bolshevik troops.

**Is Queen Elizabeth related to the Romanovs?** It is very much true that the Windsor and the Romanov families are related. Queen Elizabeth's great-grandmother Queen Alexandra came from Danish royalty. She married King Edward VII of the United Kingdom, whereas her sister Maria married Czar Alexander of Russia.

**What did the Romanovs do wrong?** Russian Empire was a troubled state, and Romanovs were blamed for all of those troubles. They were the symbols of Russian corruption, degradation, famine, war, poverty, etc. Because Nicholas II was an absolute monarch, he was unable to pass the blame. Nicholas's children, of course, were not responsible for anything.

**Are there any Romanovs alive today?** There are no immediate family members of the former Russian Royal Family alive today. However, there are still living descendants of the Romanov family. Prince Philip, Duke of Edinburgh and husband of Queen Elizabeth II is the grandnephew of Tsarina Alexandra.

**Why were Romanovs killed?** Some Western historians attribute the execution order to the government in Moscow, specifically Vladimir Lenin and Yakov Sverdlov, who wanted to prevent the rescue of the imperial family by the approaching Czechoslovak Legion during the ongoing Russian Civil War. This is supported by a passage in Leon Trotsky's diary.

**Did any of the Romanovs survive?** At the time of the executions, about a dozen Romanov relatives were known to have escaped the Bolsheviks, including Maria Feodorovna, the mother of Czar Nicholas II, her daughters Xenia and Olga, and their husbands. Of the 53 Romanovs who were alive in 1917, it's estimated that only 35 remained alive by 1920.

**What caused the Romanov dynasty to fall?** At the beginning of 1917 hungry women, who represented more than half of the workforce in St. Petersburg, expressed their dissatisfaction. On March 8, 1917, around 10,000 women went to the streets of St. Petersburg, demanding better working and living conditions, cheaper food, and an end to the rule of the Romanovs.

**Why were the Romanovs so rich?** The Romanovs' wealth was like no other family that has existed since. Though ultimately ill-fated, Tsar Nicholas Romanov ruled over the Russian Empire from 1894 to 1917, during which time they invested in palaces, jewellery, gold and art.

**Why were the Romanovs so important?** Over a period of more than three centuries, Romanovs oversaw and accelerated the expansion of the weak and floundering stardom of Muscovy into the majestic and proud Russian Empire.

**How long did Romanov rule last?** The Romanov Dynasty: 300 Year of Rule in the Russian Empire 1613-1918. For more than 300 years, one family, the Romanovs ruled the Russian Empire. It all ended for the Romanovs, with the murder of Tsar Nicholas II and his family during the Russian Revolution. Some historians say the end was predictable.

**What ethnicity were the Romanovs?** In 1613 Michael Romanov was ethnically a slay; however, by the 18th century, the Romanovs were ethnically German with a bit of English thrown in as the Czars married German princesses.

**Who is the head of the Romanov family today?** Grand Duchess Maria Vladimirovna of Russia.

**Why did Queen Mary refuse to save the Romanovs?** Whereas Penny claims Mary was jealous of the “prettier, grander” Tsarina Alexandra and didn't want her to “upstage” her in Britain, the Queen argues: “Giving asylum to the Romanovs presented a much greater threat.

**Why didn't King George rescue the Romanovs?** The exact reason for withdrawing the offer remains unclear, but it is thought that the King feared that Nicholas II's reputation as “Nicholas the Bloody” – due to the killing of peaceful protesters in 1905 – would swing the British public's favour against him.

**Could the British royal family have saved the Romanovs?** One of the most common misconceptions in the Romanov story is that King George V himself offered them asylum. No, he did not. It was not in the king's gift, as a constitutional monarch, to do so. And while George might instinctively have wished to help his royal relatives, his government made no voluntary offer.

**Was Anastasia ever found?** Anastasia's remains were likely one of the bodies that had been found earlier. Ninety years later, all bodies accounted for, the mystery seemed over until the Russian Orthodox Church reopened the case in 2015, claiming that the scientific investigations had been mishandled.

**Which Romanov daughter survived?** No. Numerous women—most famously Anna Anderson—claimed to be Anastasia and thus heir to the Romanov fortune. Each said she had survived the execution and escaped. However, DNA tests on Anastasia's remains conducted after the collapse of the Soviet Union confirmed that she had died with the rest of her family.

**Why were Romanovs murdered?** The Bolsheviks sought to establish a workers' republic and executed the Romanovs so that foreign powers couldn't back a counterrevolution to put the Romanovs back in power.

**What happened to the Romanov wealth?** - When Nicholas II abdicated, his state wealth became the property of the provisional government and later the Bolsheviks. Most was used for securing credit or buying munitions. - Whatever wealth was left untouched by that change became Soviet property in the decree Lenin signed in 1918 abolishing private property.

**Were the Romanovs finally buried?** In 1998, the remains of Nicholas, Alexandra, and the daughters found with them, as well as their staff, were laid to rest in the St Catherine Chapel at St Petersburg's St Peter and Paul Cathedral, which has served as a resting place for the Russian imperial family since the time of Peter the Great.

**How old were the Romanov children when they died?** The sisters were 22, 21, and 19 years old when they were killed. 21 Empress Aleksandra having her likeness modeled in clay. In the three years before the revolution of 1917, the German-born Empress became a figure of suspicion and contempt as Russia fought against Germany on the ruinous battlefields of WWI.

**Why did the Romanov dynasty fall?** I like to argue that the First World War is the most significant factor in the collapse of the Romanov dynasty, but in this instance it's definitely okay to argue that either Nicholas II or the nature of the protests are the most important reasons (different historians have taken each of these three views).

**Why were the Romanovs killed?** Some Western historians attribute the execution order to the government in Moscow, specifically Vladimir Lenin and Yakov Sverdlov, who wanted to prevent the rescue of the imperial family by the approaching Czechoslovak Legion during the ongoing Russian Civil War. This is supported by a passage in Leon Trotsky's diary.

**How long were the Romanovs held captive?** The royal family—and their slimmed down staff—spent 78 days in this fortified mansion turned prison, until that fateful morning of July 17, 1918, when they were woken up at 1 a.m. and ordered to dress and pack their belongings, then instead ferried into a room in the basement where they were met with a hail of bullets ...

**How long did the rule of the czars last?** Russia was ruled by the tsars from 1547 to 1917.

**Are there any Romanovs alive today?** There are no immediate family members of the former Russian Royal Family alive today. However, there are still living descendants of the Romanov family. Prince Philip, Duke of Edinburgh and husband of Queen Elizabeth II is the grandnephew of Tsarina Alexandra.

**Were the Romanovs the richest family in the world?** Then it all went wrong. Once the richest family in the world, the House of Romanov was Russia's ruling dynastic family for over 300 years from 1613 until its deposition in 1917.

**Could the Romanovs have been saved?** The Romanovs were forced to go to Siberia, and there they died. Even had the invitation not been withdrawn, historians agree that it's doubtful the Bolsheviks would ever have allowed Nicholas to leave Russia. It was long assumed that the British government had overruled George V, who was a constitutional monarch.

**Why did the king not save the Romanovs?** The exact reason for withdrawing the offer remains unclear, but it is thought that the King feared that Nicholas II's reputation as “Nicholas the Bloody” – due to the killing of peaceful protesters in 1905 – would swing the British public's favour against him.

**Was Anastasia ever found?** Anastasia's remains were likely one of the bodies that had been found earlier. Ninety years later, all bodies accounted for, the mystery

seemed over until the Russian Orthodox Church reopened the case in 2015, claiming that the scientific investigations had been mishandled.

**Did any of the Romanovs survive?** At the time of the executions, about a dozen Romanov relatives were known to have escaped the Bolsheviks, including Maria Feodorovna, the mother of Czar Nicholas II, her daughters Xenia and Olga, and their husbands. Of the 53 Romanovs who were alive in 1917, it's estimated that only 35 remained alive by 1920.

**Could George V have saved the Romanovs?** The Russian people are desperate for closure and forgiveness, and we too must let go of the idea that Anastasia somehow survived the massacre – and the idea that George V could have clicked his fingers and saved the Romanovs. Russia's last imperial family all died at Ekaterinburg. There were no miraculous escapes.

**Who is the head of the Romanov family today?** Grand Duchess Maria Vladimirovna of Russia.

**Is the house where the Romanovs were killed still standing?** The destruction of the Ipatiev House began on 22nd September 1977, that is, more than two years after a joint decision of the chairman of the State Security Committee, Yuri Andropov (1914-1984) and the Politburo. Today on this spot stands the Church on the Blood of the Holy Royal Martyrs.

**Which Romanov daughter survived?** No. Numerous women—most famously Anna Anderson—claimed to be Anastasia and thus heir to the Romanov fortune. Each said she had survived the execution and escaped. However, DNA tests on Anastasia's remains conducted after the collapse of the Soviet Union confirmed that she had died with the rest of her family.

**What language did the Romanovs speak?** The Romanov sisters' home life The girls were educated in the necessary social graces and spoke French, Russian (among themselves) and English (with their parents), but they were never spoilt.

**Did the Romanov sisters suffer?** Instead, they suffered in terror as rounds of bullets flew around the bunker, injuring but not killing them. In the end, bayonets were used to kill the innocent young Romanov sisters. An end not fitting for their

status nor kind, innocent souls. It was this terrible fate that ended the reign of the tragic Romanovs.

**Do teacher edition have answers?** Annotated Teacher's Edition The annotated edition is something completely different. This textbook includes answers, special teaching materials (like lesson plans and sample tests), and an instructor's manual.

**How do I get the teacher edition of a textbook?** Either the instructor or the Department must request the book from the publisher. (Publishing companies will not supply instructor's copies to a library) These copies are called instructor's copy, teacher's copy, desk copy, or examination copy.

**Does teaching textbooks have an answer key?** Yes, we do still sell physical textbooks and answer keys, but we recommend they only be used in conjunction with our digital products. The main benefit of the books is that they offer parents a quick way to scan the entire contents of a course.

**How many questions does a teacher get asked in a day?** The average child asks 200-300 questions a day. So if an elementary school teacher has 20 students, they are asked a minimum of 4,000 questions a day... 4,000! If your partner/spouse is an elementary school teacher, THIS is why they don't want any questions when they get home.

**Does it matter what edition of a textbook you get?** It is in your best interest to make sure you have the proper tools for your classes, even if that costs slightly more. If an old edition or international edition of the textbook is defective in some way, or doesn't match the version your professor has, it can affect your performance in the class and your final grade.

**How to get free teacher books?**

**How much do textbooks change between editions?** The difference between editions differs widely across different textbooks. I've seen cases where the second edition mostly just corrected errors in the first edition. However, I've seen other cases where whole new chapters were added, and material from an earlier edition was removed (or relegated to an appendix).

**What do teachers see on IXL?** For each skill, you'll see each student's SmartScore, questions answered, time spent, and date of their last practice session—especially useful to monitor practice results for skills you assigned.

**How do you check answers in the classroom?** If there are students who always know the answers, keep them challenged by having them lead the answer-checking activities. If students give incorrect answers, give hints or clues to help them. Alternatively, ask other students in the class to provide the correct answer. Avoid simply giving the students the answer.

**Do teachers actually check your sources?** Common? Yes of course, teachers actually check sources! And if you are wondering do professors check sources for an annotated bibliography, then the answer is yes. Most of the time, the professors are well aware of the disciplines they are in charge of.

**Do teachers have to grade every assignment?** If you try to grade every assignment your students complete, you could literally spend all your spare time grading and still not catch up. Luckily, you DON'T HAVE TO GRADE EVERY ASSIGNMENT.
