What created a climate of icy tension between the U.S. and the Soviet Union? FORMER ALLIES CLASH The United States and the Soviet Union had very different ambitions for the future. These differences created a climate of icy tension that plunged the two countries into a bitter rivalry.

What precipitated the renewed civil war in China? Japanese surrender set the stage for the resurgence of civil war in China. Though only nominally democratic, the Nationalist Government of Chiang Kai-shek continued to receive U.S. support both as its former war ally and as the sole option for preventing Communist control of China.

What was Marshall Plan answers? The Marshall Plan was a U.S.-sponsored program that was implemented following the end of World War II. It was intended to aid European countries that had been destroyed as a result of the war, and it was laid out by U.S. Secretary of State George Marshall during an address at Harvard University in 1947.

How did American leaders think the Marshall Plan would help? For the United States, the Marshall Plan provided markets for American goods, created reliable trading partners, and supported the development of stable democratic governments in Western Europe. Congress's approval of the Marshall Plan signaled an extension of the bipartisanship of World War II into the postwar years.

What caused the tension between the Soviet Union and the US? The Americans and the British feared the permanent Soviet domination of eastern Europe and the

threat of Soviet-influenced communist parties coming to power in the democracies of western Europe.

What made the growing tension between the US and USSR evolve into the Cold War? Post-WWII, tension between the USA and the Soviet Union led to a worldwide Cold War. Reasons for this included: ideological differences, problems in Germany, the arms race and the Korean War.

Has communism ever worked? Although Marxist theory suggested that industrial societies were the most suitable places for social revolution (either through peaceful transition or by force of arms), communism was mostly successful in underdeveloped countries with endemic poverty such as the Russian Empire and the Republic of China.

Is China still in a civil war? Yes, the Chinese Civil War is still going on as after the nationalists were driven out of Taiwan. No agreement, peace deal or a permanent armistice have been signed. So, Taiwan and China are still technically at war.

When did China lose civil war? The Chinese Civil War was fought between the Kuomintang-led government of the Republic of China and the forces of the Chinese Communist Party (CCP), with armed conflict continuing intermittently from 1 August 1927 until 1 May 1950, resulting in a communist victory and control of mainland China.

How did the Marshall Plan impact the Cold War? Since Marshall Plan aid was extended to all countries in Europe, including those aligned with the Soviet Union, Stalin was worried that his communist allies would be pulled into strong economic relations with the West and created his own economic assistance plan to keep them in line.

What is the Marshall Plan in your own words? The Marshall Plan was a U.S.-sponsored program designed to rehabilitate the economies of 17 western and southern European countries in order to create stable conditions in which democratic institutions could survive in the aftermath of World War II. It was formally called the European Recovery Program.

Who helped rebuild Germany after WWII? In 1948, hoping to promote European recovery and further democracy, the United States, led by President Truman, enacted the Marshall Plan. The Marshall Plan, named after Secretary of State, George Marshall, was a \$15 billion-dollar economic plan to help with the reconstruction of Germany and Europe after WWII.

Did the Marshall Plan help or hurt the US economy? The Marshall Plan generated a resurgence of European industrialization and brought extensive investment into the region. It was also a stimulant to the U.S. economy by establishing markets for American goods.

Was the Marshall Plan paid back? The countries that received funds under the plan didn't have to repay the United States, as the monies were awarded in the form of grants. However, the countries did return roughly 5 percent of the money to cover the administrative costs of the plan's implementation.

What did the Marshall Plan try to stop? Another unofficial goal of ECA (and of the Marshall Plan) was the containment of growing Soviet influence in Europe, evident especially in the growing strength of communist parties in France, and Italy. The Marshall Plan money was transferred to the governments of the European nations.

What caused the tension between the Soviet Union and the US quizlet? What caused the tension between the Soviet Union and the United States after the war? Stalin resented the Western Allie's delay in attacking the Germans in Europe and that the United States had tried to keep its development of the atomic bomb a secret.

What did the tensions between the Soviet Union and the United States become known as? After World War II, the United States and its allies, and the Soviet Union and its satellite states began a decades-long struggle for supremacy known as the Cold War.

What were the causes of the Cold War with the Soviet Union? The Cold War was caused by disagreements about the practices of communism versus democracy. Though they were allies in the Second World War, the USSR and the United States did not have the same opinion on how to divide and manage Germany following its defeat in World War II.

What were the factors that made the Cold War conflict between the US and the Soviet Union unavoidable? Historians have identified several causes that led to the outbreak of the Cold War, including: tensions between the two nations at the end of World War II, the ideological conflict between both the United States and the Soviet Union, the emergence of nuclear weapons, and the fear of communism in the United States.
