Who owns RP funding? From starting as a small business owner in Lakeland, Florida to becoming the president of a 400-plus employee portfolio of companies, RP Funding CEO Robert Palmer has always taken pride in his home state.

Why is Axure good? Axure is a fully integrated application that eliminates the need to use different design tools. For example, after creating user flows, customer journey maps, personas, storyboards, sitemaps, information architecture, and wireframes, designers can easily continue to complex prototypes—right inside Axure.

When did Axure start? In 2002, we were working for a start-up in the Bay Area, and found ourselves repeatedly frustrated by limitations of the typical software development life cycle: product and design teams had difficulty evaluating their solutions before writing specifications, and developers didn't understand (or read) the ...

Is Axure cloud based? Axure Cloud for Business can be hosted on a custom internal, private domain on Axure servers or at your on-premises location. Cloud for Business gives you all of the publishing and collaboration features of Axure Cloud plus control of the accounts and permissions within your organization.
