Scale Per Pianoforte Finizio Swindonore: Questions and Answers

1. What is a scale per pianoforte Finizio Swindonore?

A scale per pianoforte Finizio Swindonore is a method of tuning the strings of a piano developed by the Italian piano tuner Eugenio Finizio in the early 1900s. The method involves dividing the octave into 50 equal parts, known as "cents," and tuning the strings to specific intervals based on these cents.

2. Why was the scale per pianoforte Finizio Swindonore developed?

Finizio believed that the traditional equal temperament tuning system, which divides the octave into 12 equal parts, did not produce satisfactory results when applied to the piano. The scale per pianoforte Finizio Swindonore aimed to address this by
